### CARESS CUTICLE OIL

The **NEW** version with the **Anti-Fungal** formula  
 is selling really well! Time to try it?

**NEW** CARESS Cuticle Oil intensely hydrates skin and nails and revives dry, cracked cuticles on contact. Fast absorbing with a non greasy feel, this luxe oil delivers deep conditioning around cuticles and the nail bed.

With an organic blend of comforting Lavender Oil, antioxidant Grape Seed Oil, Algae Extract and purifying Tea Tree Oil, CARESS Cuticle Oil is perfect for problem cuticles and dry skin or simply keeping cuticles and nails in their best condition.

Supplied in an attractive box with instructions for use. With Summer coming Caress Cuticle Oil is perfect for retail sales in your practice.

**\$21.50 per bottle RRP \$38**  
**Buy 3+ bottles for a 10% discount**

### NEXT NEEDLING WORKSHOP IN BYRON

Shane Toohey's **PRACTICAL NEEDLING FOR PODIATRISTS** is back in Byron in December. This is a 3 day workshop focussing on conditions that are presented in clinic. Perfect for beginners, or to help you make better use of skills you already have. Followed by a **2 day MASTERCLASS** for advanced WMA practitioners. FOR MORE INFO CONTACT US OR email: [officemanager@artisanorthoticlab.com.au](mailto:officemanager@artisanorthoticlab.com.au) or visit [www.acupunctureinpodiatry.com](http://www.acupunctureinpodiatry.com)

## QLICKSMART

Every Pod should know that the Qlicksmart BladeFLASK is the safest way to remove and contain used scalpel blades. Scalpel cuts can happen to anyone - no matter how experienced you are in handling scalpels. Qlicksmart BladeFLASK prevents the dangerous injuries caused by removing blades with fingers, forceps or re-sheathing.

**BladeFLASK is easy to use with a quick "push, click and pull" action to remove and contain used scalpel blades.**

**NOTE - from AS/NZS 3825:1998  
Procedures and Devices for the Removal and Disposal  
of Scalpel Blades from Scalpel Handles**

*"removal of the blade must occur using a single handed technique. This requires a device compliant with AS/NZS 3825 to be used in accordance with manufacturer's instructions. In general terms, this requires the approved blade-removing device to be securely mounted to a surface so that the container does not need to be held by the other hand during blade removal."*

**BladeFLASK used with the mounting bracket are the only options available to ensure you comply with the procedures and do so easily and safely. Don't get caught out in an audit!**

**PROMO PRICE  
CONTINUES**

**\$24.90** normally \$25.80  
**BUY 3+ @ 10% off list \$23.22ea**  
**MOUNTING BRACKET \$5.00**
