Dr.'s REMEDY®
Enriched Nail Care 

CARESS CUTICLE OIL

The NEW version with the new formula is now in stock!

Formulated with a trio of nourishing natural oils for supreme conditioning, **NEW** CARESS Cuticle Oil intensely hydrates skin and nails and revives dry, cracked cuticles on contact. Fast-absorbing with a non greasy-feel, the luxe yet lightweight oil delivers deep conditioning around cuticles and the nail bed.

With an organic blend of comforting Lavender Oil, antioxidant-rich Grape Seed Oil, Algae Extract and purifying Tea Tree Oil, CARESS Cuticle Oil is perfect for problem cuticles and dry skin or simply keeping cuticles and nails in their best condition.

CARESS CUTICLE OIL HAS BEEN A BIG HIT IN THE USA WITH IT'S NEW ENRICHED ANTI-FUNGAL FORMULA

NEW Dr.'s REMEDY CARESS Cuticle Oil also contains Undecylenic Acid (or Undecenoic Acid in Australia) a powerful fatty acid used in many products to effectively control topical skin fungal infection* and relieve itching and irritation.

A four month consumer trial in early 2019 found an extremely high satisfaction rate (87%+) in overall health and appearance of cuticles and nails. There were also significant decreases in splitting and peeling of cuticles, breakage due to brittle dry nails and a 100% improvement in appearance of discoloured nails.

Advise your patients to apply twice a day for similar results.

Trial results are available on request. *Undecylenic Acid is not effective on or approved for fungal nail infections

\$21.50 per bottle RRP \$38.00

INTRO SPECIAL! Buy 3+ bottles for a 10% discount

NEW Dr.'s REMEDY CARESS Cuticle Oil is supplied in a box with product descriptions and information plus directions for use. It will look great on display in your retail area.

CARESS Cuticle Oil is packaged in the same 15ml bottle as the Remedy Nail Colours and is brushed onto cuticles so it is very simple to use making it easy to sell to your patients.

Great to use in conjunction with Dr.'s REMEDY Hydration Moisture Treatment as a two pronged attack on dry, brittle cuticles and nails.

SPECIALS VALID UNTIL 31/8 OR WHILE STOCKS LAST. ALL PRICES ARE EX GST

QLICKSMART

Every Pod should know that the Qlicksmart BladeFLASK is the safest way to remove and contain used scalpel blades. Scalpel cuts can happen to anyone - no matter how experienced you are in handling scalpels. Qlicksmart BladeFLASK prevents the dangerous injuries caused by removing blades with fingers, forceps or re-sheathing.

BladeFLASK is easy to use with a quick "push, click and pull" action to remove and contain used scalpel blades.

NOTE - from AS/NZS 3825:1998

Procedures and Devices for the Removal and Disposal of Scalpel Blades from Scalpel Handles

"removal of the blade must occur using a single handed technique. This requires a device compliant with AS/NZS 3825 to be used in accordance with manufacturer's instructions. In general terms, this requires the approved blade-removing device to be securely mounted to a surface so that the container does not need to be held by the other hand during blade removal."

BladeFLASK used with the mounting bracket are the only options available to ensure you comply with the procedures and do so easily and safely. Don't get caught out in an audit!

PROMO PRICE! \$24.90 normally \$25.80
BUY 3+ @ 10% off list \$23.22ea
MOUNTING BRACKET \$5.00
