

## SUMMER IS NOW EVEN CLOSER!

AS WE CONTEMPLATE SHOWING OUR TOES TO THE WORLD AGAIN, WE CONTINUE OUR FOCUS ON FUNGAL NAIL TREATMENTS. WHETHER YOU USE A LASER OR NOT, YOU CAN EASILY CREATE AN ANTI-FUNGAL HYGIENE PROGRAM FOR YOUR FUNGAL NAIL PATIENTS & GENERATE CLINIC INCOME

### WANT TO MOVE TO LASER?

**NEO V LASER \$25,950**  
1064nm 10W Laser  
November Special!  
Includes Setup & Training

The **NEO V** is footswitch controlled for safe operation. It has a focussing handpiece with guides and a shielded optical cable so it's very reliable and easy to setup and use.

As many Pods who use Lasers for fungal nails know, they offer an effective treatment method and can also bring in great clinic income. With the proper setup and billing plan along with incidental sales of hygiene products you can pay for the cost of the laser in around 24 months (or less!) depending on your patient throughput. We can assist with finance so please contact us for more info
