## **COVID-19 AND SUPPLY OF GOODS TO PODIATRISTS**

Dear valued customers

As you can imagine we are experiencing an unprecedented work load due to the current Covid-19 situation. We are doing our best to supply your normal supplies and dispatch orders as quickly as possible. However there are serious shortages of many medical products.

### **\*\*PRODUCTS AFFECTED\*\***

**ALL FACEMASKS, MANY HAND WASHES, MANY HAND SANITISERS, CHLORHEX IN 70% ALCOHOL & ALL CLEANING & DISINFECTING PRODUCTS.**

**PLEASE ONLY ORDER THE ITEMS ABOVE IF YOU NORMALLY ORDER THESE ITEMS FROM DBS. WE ARE DOING OUR BEST TO BE ABLE TO SUPPLY OUR REGULAR CUSTOMERS.**

We will not be supplying any of the above items in bulk in the interest of continuing to supply our loyal customers. Unfortunately we will not be able to supply you if you don't regularly order these products. The situation is fluid and if things change we will look at changing this policy.

**ALL** Pods are facing the same issues and we are trying our best to be able to supply something to as many of our regular customers as possible.

### **DBS ARE ONLY SUPPLYING PODIATRISTS**

We are NOT supplying other Allied Health or other medical disciplines.

Any stock we are allocated by our manufacturers is based on our usual purchase history and almost all products are being diverted to Hospitals or the Government Stockpile. This is why we are restricting sales to our existing purchasers of such products and it is because we can't get in excess to our normally supplied quantities.

\*\*\*We welcome any new customers not requiring these products and would love to help you with any enquiries you may have. Please click on "Sign Up" then "Apply Now" to register for a login to our website.
