

# Optima Towel Range

A luxuriously plush towel with a soft, even texture, minimal lint and piling  
Optima features 100% ring-spun cotton with combed high pile height.

Features	Benefits
Weight to size and reed/pick ratio gives a higher pile cover factor for exceptional tensile and bursting strength results	Extremely durable for a commercial towel which can be washed at 90°C
Enhanced replacement cycle of the towel	A reduced replacement cycle also means a reduction in raw material and manufacturing carbon footprint
Newly designed edge hem	Minimal puckering
NZWTA tested for low shrinkage high burst / tensile strength & low loop slippage	Exceeds NZ commercial towel standards
