

FULLY MONITORED ELECTRIC STRIKE

A7103

This electric strike offers a durable choice with dual voltage as standard and interchangeable Fail Safe/Fail Secure setting.

The body is constructed from zinc alloy and has SSS keeper and faceplate. Holes are predrilled for optional extension lips. It is CE and C-tick approved and comes with extra faceplate suitable for wood/steel and aluminium door frames.

Specifications

- Fail Safe/Fail Secure interchangeable
- Variable Voltage 12~24VDC/AC
- Suits latch depth up to 15mm
- Monitored Latch and Keeper
- Pre-drilled for optional extension lips
- Includes mounting tabs for metal frame
- Operating voltage variable 12~28VDC/AC
- Voltage tolerance +/- 15%
- Current draw: 12VDC/190mA, 24VDC/140mA (at temperature 20°C)
- Latch/Keeper Micro Switch Rating: 1A/125VAC
- Operating Temperature: -10°C~45°C
- Humidity: 0-95%
- Cycle tested to 1 Million cycles
- CE Certified
- C-Tick
