Re: FDA Status Solvay Specialty Polymers KetaSpire® KT-820 NT

Thank you for your interest in KetaSpire® KT-820 NT polyetheretherketone, manufactured by Solvay Specialty Polymers.

KetaSpire KT-820 NT, as manufactured, complies with Title 21 CFR Part 177.2415 promulgated under the Federal Food, Drug and Cosmetic Act (FFDCA). It is, therefore, permitted by FDA for use as articles or components of articles intended for repeated use in contact with food. All additives contained in Ketaspire KT-820 NT are FDA compliant and are not subject to restrictions beyond those listed in 21 CFR Part 177.2415.

It is, however, the responsibility of the customer to determine that all conditions and specifications outlined under the above-mentioned regulatory category are met, and that the products fabricated from these materials are acceptable to the FDA for use in their intended food-contact applications.

If you have further questions, please do not hesitate to contact me by telephone at 770-772-8876 or by e-mail at [migdalia.alvarado@solvay.com](mailto:migdalia.alvarado@solvay.com)

Sincerely,

*Migdalia Alvarado*
