

# BL3100BLK

BORG DIGITAL GATE LOCK 3100 KEYPAD/LEVER BLK

---

## Description

The BL3100BLK Gatelock is another new and unique product from Borg which combines the security of a 14 digit external codepad with the convenience of a spring loaded exit handle on the inside. With a special lockcase featuring an anti-climb external handle and an adjustable latch bolt, it is designed to fit metal gates of various sizes and types. This self locking system is designed to be as adjustable as possible. Being fully reversible, makes it suitable for left or right handed gates. Using the telescopic fixing screws supplied, makes the gatelock simple to fit.

## Features
