PRODUCT CODES

Part Number Designation

The part number for the cylinder explains the length & offset of the cylinder.
Cylinder & turn models are available in the same offset.

CPF-5T-35-65SC

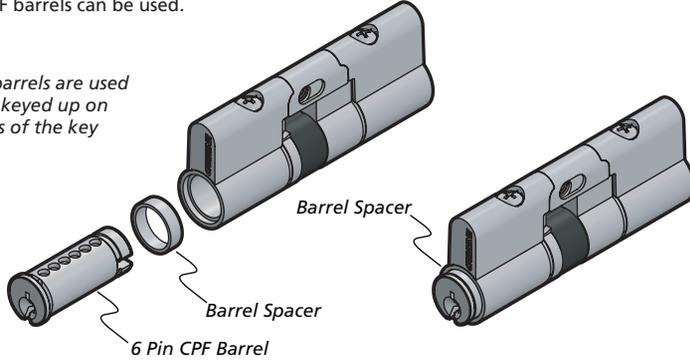

CPF-5T-65-35SC

BARREL TYPE

Carbine Extended Profile Cylinder uses our existing 5 pin LKW5 keyway (C4) CPF barrels. 6 Pin CPF barrels can be used in-conjunction with the barrel spacer. Restricted CPF barrels can be used.

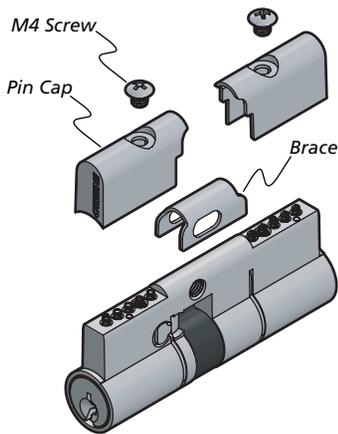

Note:
When 6 pin barrels are used these will be keyed up on the last 5 cuts of the key

Note:
Barrel Spacer sold separately
CPFE1-SR-SS

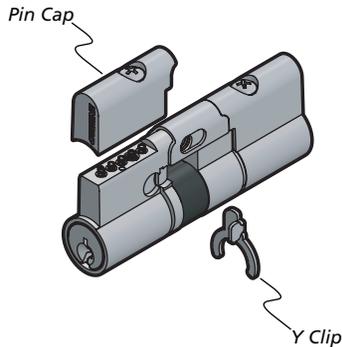

BRACE

Carbine Extended Profile Cylinders come with a stainless steel body brace to strengthen the body of the profile cylinder.

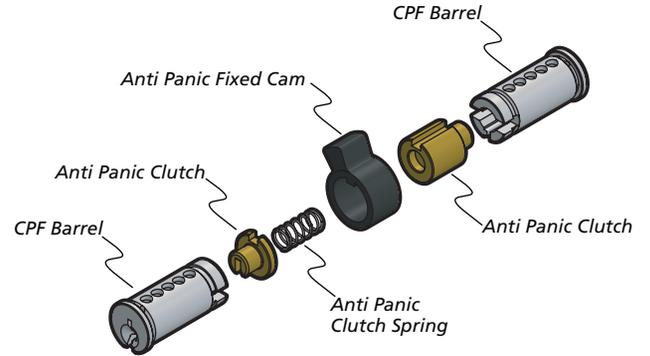

Y CLIP

Carbine Extended Profile Cylinders come with the patented "Y Clip" to hold and secure the CPF barrels.

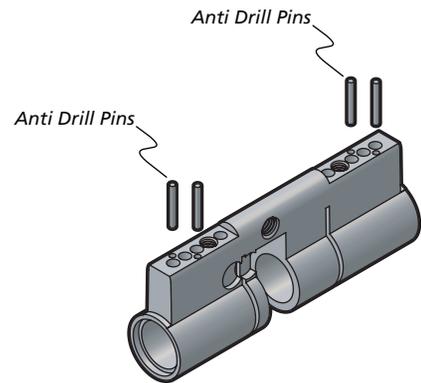

ANTI PANIC CLUTCH

Carbine Extended Profile Cylinders use an "Anti Panic Clutch" system.

ANTI DRILL PINS

Carbine Extended Profile Cylinders all come with hardened "Anti Drill Pins" installed into the body.

FINISHES

Carbine Extended Profile Cylinders are available in the following finishes.
