

TECHNICAL DATA SHEET

RACING CASTOR OIL

Racing Castor Oil is a traditional straight vegetable oil of SAE 40 viscosity for use either in two-stroke or four-stroke lubrication. It meets the continuing demand for a traditional castor lubricant, preferred in speedway, grass tracks and vintage machines.

Racing Castor Oil is suitable for all total loss and recirculating systems on four-stroke engines, and for use as a pre-mix for two-stroke engines with either petroleum or methanol.

FEATURES

- High shear stability, even under the severest conditions
- Prevention of oil-induced piston seizure due to its high lubricity
- Extremely low rates of wear
- Increased engine reliability

Note: Racing Castor Oil should be used within 12 months of purchase.

TYPICAL PHYSICAL CHARACTERISTICS

Viscosity Grade	SAE 40 (12.5cSt<16.3cSt@100°C)
Density @ 15°C	0.964
Appearance	Clear pale amber liquid
Product Code	14400
