Factory USB C port

Type-C   Adapter

NOTE! The adapter should be plugged into the USB port that is for wired Apple CarPlay or Android Auto connecting if there are multi USB ports in your car.

▌ How to set up wireless CarPlay

- Turn on your iPhone's Wi-Fi and Bluetooth, then pair to the Bluetooth named **"Car2-xxxx"**
- Tap **"Pair-Allow-Use CarPlay"** on the iPhone pop-up notifications
- It will then connect to CarPlay wirelessly after a few seconds.

# ▌ How to set up wireless Android Auto

- Make sure [Wireless Android Auto] enabled in Android Auto app settings.
- Pair your smartphone with the adapter's Bluetooth: **[Car2-xxxx]**. It will then connect to Android Auto wirelessly after a few seconds

▌Firmware update

Firmware updating is NOT recommended when every function works well.

NOTE! The red and blue indicator lights will flash alternately while updating. Wait for more 30s after light is always on, then disconnect and reconnect the adapter from USB port to finish the whole update.

● Update on iPhone

- If your iPhone is connecting to the wireless CarPlay, enter **192.168.1.101** on iPhone's browser, next tap **"Update"** if there is an update available.
- If your iPhone could not connect to the wireless CarPlay, please join the adapter's WiFi network **[Car2-xxxx]** by manual and the password is **88888888**. Next enter **192.168.1.101** on iPhone's browser, and tap **"Update"**.

● Update on Android smartphone

1.Plug in the product to the car system

2.Connect your Android phone to the product's Wi-Fi
WiFi Name: **Car2-XXXX**
WiFi Password: **88888888**

3.Open the browser on your phone

4.Enter **192.168.1.101** in the search bar, and go into the backend interface Click the **Switch P2P** button at the bottom of website

5.On your Android phone, go to **Settings - Wi-Fi Direct**, connect to the device named Car2-XXXX

6.Reopen the browser on your phone and access the backend at **192.168.1.101** again

7.Click upgrade in the backend interface After the upgrade progress is completed, manually restart the product

- On your phone, go to **WiFi >> Advanced settings >> WiFi direct**, tap [Car2-xxxx] and make sure it has connected.

Car2 —▓▓▓▓
Connected
- Enter **192.168.1.101** on smartphone browser, next tap **"Update"** if there is an update available.
