

ELECTRIC ROTARY POLISHER / SANDER

The Formula Sander Polisher with a 180 mm Dia disc and wool pad is designed to use for industrial applications. It's power rating of 1200W works at a no-load speed of 3000 rpm for trigger operations, and at a no-load speed of 600 - 3000 rpm for pre-set dial settings. Electronic speed control mechanism delivers great performance under pressure.

The speed of the polisher can be changed accordingly to obtain ultra slow polishing. Hook and loop of the sander facilitates quick paper change.

It comes with a pad, wool pad, hex wrench and a loop handle.

- ✓ Suitable for general industrial applications
- ✓ Electronic speed control sustains the speed throughout the load
- ✓ Adjustable speed for ultra slow polishing or high speed for sanding
- ✓ Hook and loop allows easy paper change
- ✓ Includes pad, wool pad, hex wrench and a loop handle
