

# SAFETY DATA SHEET

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier		
Trade name or designation	Ultra 2-Step Finishing Polish	
Registration number	-	Distributer in New Zealand Pacer Car Clean Products NZ LTD
Synonyms	None.	33 Ha Crescent Wiri
Product Code	1394	Auckland, New Zealand Telephone: +64 9 25000 91
Issue date	06-30-2015	Fax: +64 9 25000 92
Version number	02	Web: :www.pacer.co.nz
Revision date	07-21-2015	
Supersedes date	06-30-2015	
1.2. Relevant identified uses of the Identified uses Uses advised against	e substance or mixture and use Compound, Polishing Creme None known.	es advised against
1.3. Details of the supplier of the	safety data sheet	
Supplier		24hr Emergency Assistance in New Zealand
Company name	Presta Products	National Poison Control Center: 0800 Poison [764-766]
Address	361 Fairview Ave	
	Barberton, OH 44203 US	
Division	Barberton, OH 44203 US	
Division Telephone	Barberton, OH 44203 US Phone Fax	800-253-2526 330-777-8317
Division Telephone e-mail	Barberton, OH 44203 US Phone Fax msdsinfo@malcopro.com	800-253-2526 330-777-8317
Division Telephone e-mail Contact person	Barberton, OH 44203 US Phone Fax msdsinfo@malcopro.com Not available.	800-253-2526 330-777-8317

### SECTION 2: Hazards identification

2.1. Classification of the substance or mixture The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

Classification according to Regulation (EC) No 1272/2008 as amended

Health hazards		
Specific target organ toxici exposure	ty - repeated Category 2	H373 - May cause damage to organs through prolonged or repeated exposure.
Aspiration hazard	Category 1	H304 - May be fatal if swallowed and enters airways.
Hazard summary	Combustible. May be fatal if swallowed and enters prolonged or repeated exposure. Occupational exp adverse health effects.	airways. May cause damage to organs through posure to the substance or mixture may cause
Hazard Summary (according to D	angerous Substances Directive)	
Physical hazards	Not classified for physical hazards.	
Health hazards	Not classified for health hazards.	
Environmental hazards	Not classified for hazards to the environment.	
Specific hazards	None known.	
Main symptoms	Aspiration may cause pulmonary edema and pneu chronic effects.	monitis. Prolonged exposure may cause
2.2. Label elements		
Label according to Regulation (E	C) No. 1272/2008 as amended	

Hazard pictograms

Signal word	Danger	
Hazard statements		
H304 H373	May be fatal if swallowed and enters airways. May cause damage to organs through prolonged or repeated exposure.	
Precautionary statements Prevention		
P260	Do not breathe mist or vapor.	
Response		
- P301 + P310 P314 P331	IF SWALLOWED: Immediately call a POISON CENTER/doctor. Get medical advice/attention if you feel unwell. Do NOT induce vomiting.	
Storage		
P405	Store locked up.	
Disposal		
P501	Dispose of contents/container in accordance with local/regional/national/international regulations.	
Supplemental label information	None.	
2.3. Other hazards	Combustible.	
SECTION 3: Composition/i	nformation on ingredients	
3.2. Mixtures	5	
General information		
Chemical name	% CAS-No. / EC No. REACH Registration No. Index No. Notes	
Distillates (Petroleum), Hydroti Light Classification: Asp.	reated 10 - < 20 64742-47-8 - 649-422-00-2 265-149-8 - 649-422-00-2	
Solvent Naphtha (Petroleum), Medium Aliph	5 - < 10 64742-88-7 - 649-405-00-X 265-191-7	
Classification: Asp.	. Tox. 1;H304, STOT RE 1;H372	
Other components below repo		
List of abbreviations and symbo CLP: Regulation No. 1272/200 DSD: Directive 67/548/EEC. Composition comments	The full text for all R- and H-phrases is displayed in section 16.	
SECTION 4: First aid meas	ures	
General information	If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.	
4.1. Description of first aid meas	ures	
Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.	
Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.	
Eye contact	Rinse with water. Get medical attention if irritation develops and persists.	
Ingestion	Call a physician or poison control center immediately. Rinse mouth. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.	
4.2. Most important symptoms and effects, both acute and delayed	Aspiration may cause pulmonary edema and pneumonitis. Prolonged exposure may cause chronic effects.	
4.3. Indication of any immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.	

## SECTION 5<sup>°</sup> Firefighting measures

SECTION 5: Firefighting m	easures
General fire hazards	Combustible. No unusual fire or explosion hazards noted.
5.1. Extinguishing media Suitable extinguishing media	Powder. Alcohol resistant foam. Dry chemicals. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
5.2. Special hazards arising from the substance or mixture	During fire, gases hazardous to health may be formed.
5.3. Advice for firefighters Special protective equipment for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Special fire fighting procedures	Cool containers exposed to heat with water spray and remove container, if no risk is involved.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
SECTION 6: Accidental rele	ease measures
6.1. Personal precautions, protect	tive equipment and emergency procedures
For non-emergency personnel	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist or vapor. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
For emergency responders	Keep unnecessary personnel away. Use personal protection recommended in Section 8 of the SDS.
6.2. Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
6.3. Methods and material for containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Use water spray to reduce vapors or divert vapor cloud drift. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
	Never return spills to original containers for re-use.
6.4. Reference to other sections	For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.

## SECTION 7: Handling and storage

7.1. Precautions for safe handling	Do not breathe mist or vapor. Avoid prolonged or repeated contact with skin. Avoid prolonged exposure. Use only in well-ventilated areas. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Observe good industrial hygiene practices.
7.2. Conditions for safe storage, including any incompatibilities	Store locked up. Keep away from heat and sources of ignition. Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).
7.3. Specific end use(s)	Not available.

## SECTION 8: Exposure controls/personal protection

## 8.1. Control parameters

### Occupational exposure limits

Austria. MAK List, OEL Ordinance (GwV), BGBI. II, no. 184/2001

Components	Туре	Value	Form
Calcined Alumina (CAS 1344-28-1)	MAK	5 mg/m3	Respirable fraction.
		5 mg/m3	Respirable fume.
		10 mg/m3	Inhalable fraction.

Biological limit values	No biological exposure limits noted for	for the ingredient(s).	
procedures	Follow standard monitoring procedul	les.	
Derived no-effect level (DNEL)	Not available.		
Predicted no effect concentrations (PNECs)	Not available.		
8.2. Exposure controls			
Appropriate engineering controls	Good general ventilation (typically 10 should be matched to conditions. If a or other engineering controls to mair exposure limits have not been estab	D air changes per hour) should be applicable, use process enclosure ntain airborne levels below recom lished, maintain airborne levels to	e used. Ventilation rates es, local exhaust ventilation, mended exposure limits. If o an acceptable level.
Individual protection measures,	such as personal protective equipm	nent	
General information	Personal protection equipment shou discussion with the supplier of the pe	Id be chosen according to the CE ersonal protective equipment.	N standards and in
Eye/face protection	Chemical respirator with organic vap	oor cartridge and full facepiece.	
Skin protection			
- Hand protection	Wear appropriate chemical resistant supplier.	gloves. Suitable gloves can be r	ecommended by the glove
- Other	Use of an impervious apron is recom	nmended.	
Respiratory protection	Chemical respirator with organic vap	oor cartridge and full facepiece.	
Thermal hazards	Wear appropriate thermal protective	clothing, when necessary.	
Hygiene measures	Always observe good personal hygic and before eating, drinking, and/or s equipment to remove contaminants.	ene measures, such as washing a moking. Routinely wash work clo	after handling the material othing and protective
Environmental exposure controls	Environmental manager must be info	ormed of all major releases.	

## SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

### Appearance

Physical state	Liquid.
Form	Liquid. Viscous.
Color	Light grey
Odor	Pina Colada
Odor threshold	Not available.
pH	8,5
Melting point/freezing point	2741 °F (1505 °C) estimated
Initial boiling point and boiling range	4185,5 °F (2307,5 °C) estimated
Flash point	145,0 °F (62,8 °C)

Material name: Ultra 2-Step Finishing Polish

Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explo	osive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Vapor pressure	0,06 hPa estimated
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	
Solubility (water)	Not available.
Solubility (other)	Not available.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	739 °F (392,78 °C) estimated
Decomposition temperature	Not available.
Viscosity	20000 cP
Viscosity temperature	68 °F (20 °C)
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
9.2. Other information	
Density	8,67 lbs/gal
Kinematic viscosity	31853 cSt
Kinematic viscosity temperature	68 °F (20 °C)
VOC (Weight %)	5 % By Weight

## SECTION 10: Stability and reactivity

10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.
10.3. Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Avoid temperatures exceeding the flash point. Contact with incompatible materials.
10.5. Incompatible materials	Acids. Strong oxidizing agents. Chlorine.
10.6. Hazardous decomposition products	No hazardous decomposition products are known.

## SECTION 11: Toxicological information

General information	Occupational exposure to the substance or mixture may cause adverse effects.
Information on likely routes of ex	posure
Inhalation	May cause damage to organs through prolonged or repeated exposure by inhalation.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Direct contact with eyes may cause temporary irritation.
Ingestion	Droplets of the product aspirated into the lungs through ingestion or vomiting may cause a serious chemical pneumonia.
Symptoms	Aspiration may cause pulmonary edema and pneumonitis.
11.1. Information on toxicological	effects
Acute toxicity	May be fatal if swallowed and enters airways.
Skin corrosion/irritation	Due to partial or complete lack of data the classification is not possible.
Serious eye damage/eye irritation	Due to partial or complete lack of data the classification is not possible.
Respiratory sensitization	Due to partial or complete lack of data the classification is not possible.
Skin sensitization	Due to partial or complete lack of data the classification is not possible.
Germ cell mutagenicity	Due to partial or complete lack of data the classification is not possible.
Carcinogenicity	Due to partial or complete lack of data the classification is not possible.

Material name: Ultra 2-Step Finishing Polish

Reproductive toxicity	Due to partial or	complete lack of data the classific	cation is not possible.	
Specific target organ toxicity - single exposure	Due to partial or	complete lack of data the classific	cation is not possible.	
Specific target organ toxicity - repeated exposure	May cause dam	age to organs through prolonged o	or repeated exposure.	
Aspiration hazard	May be fatal if s	wallowed and enters airways.		
Mixture versus substance information	No information a	available.		
Other information	Not available.			
SECTION 12: Ecological in	formation			
12.1. Toxicity	The product is r	ot classified as environmentally ha	azardous. However, this does	not exclude the
	possibility that la	arge or frequent spills can have a l	harmful or damaging effect on	the environment.
Components		Species	Test Results	
Distillates (Petroleum), Hydrotreate	d Light (CAS 647	42-47-8)		
	050		0.0 mm m/l .00 k mmm	
FISH	_C50	Oncorhynchus mykiss)	2,9 mg/l, 96 hours	
* Estimates for product may be	e based on additio	nal component data not shown.		
12.2. Persistence and degradability	No data is avail	able on the degradability of this pr	oduct.	
12.3. Bioaccumulative potential				
Bioconcentration factor (BCF)	Not available.			
12.4. Mobility in soil	No data availab	e.		
12.5. Results of PBT	Not available.			
and vPvB assessment				
12.6. Other adverse effects	No other advers potential, endoc	e environmental effects (e.g. ozon rine disruption, global warming po	e depletion, photochemical oz tential) are expected from this	zone creation component.
SECTION 13: Disposal con	siderations			
13.1. Waste treatment methods				
Residual waste	Dispose of in ac product residue Disposal instruc	cordance with local regulations. E s. This material and its container r tions).	Empty containers or liners may nust be disposed of in a safe	y retain some manner (see:
Contaminated packaging	Since emptied of emptied. Empty disposal.	ontainers may retain product resic containers should be taken to an a	lue, follow label warnings ever approved waste handling site	n after container is for recycling or
EU waste code	The Waste code disposal compa	e should be assigned in discussion ny.	ı between the user, the produc	cer and the waste
Disposal methods/information	Collect and reclar contents/contain	aim or dispose in sealed container her in accordance with local/region	s at licensed waste disposal s al/national/international regula	ite. Dispose of ations.
Special precautions	Dispose in acco	rdance with all applicable regulation	ons.	
SECTION 14: Transport inf	ormation			
ADR				
Not regulated as dangerous go	oods.	New Zeeland CDMA Decis	tor of Horordova Cubatanaga	
RID		HSNO: HSR002525	ter of Hazardous Substances	
Not regulated as dangerous go ADN	oods.	Cleaning products (Comb	ustible) Group Standard 2006	
Not regulated as dangerous go	oods.			
ΙΑΤΑ				
Not regulated as dangerous go	oods.			
IMDG Not regulated as descerate as	ode			
14.7 Transport in hulk	Not established			
according to Annex II of				
MARPOL 73/78 and the IBC Code				

### **SECTION 15: Regulatory information**

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

### EU regulations

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex I and II, as amended Not listed.

Regulation (EC) No. 1005/2009 on substances that deplete the ozone layer, Annex II, as amended Not listed.

Regulation (EC) No. 850/2004 On persistent organic pollutants, Annex I as amended

Not listed.

Regulation (EC) No. 689/2008 concerning the export and import of dangerous chemicals, Annex I, part 1 as amended Not listed.

Regulation (EC) No. 689/2008 concerning the export and import of dangerous chemicals, Annex I, part 2 as amended Not listed.

Regulation (EC) No. 689/2008 concerning the export and import of dangerous chemicals, Annex I, part 3 as amended Not listed.

- Regulation (EC) No. 689/2008 concerning the export and import of dangerous chemicals, Annex V as amended Not listed.
- Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry, as amended Not listed.
- Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA Not listed.

### Authorizations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended

- Not listed.
- Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended Not listed.

### Restrictions on use

Regulation (EC) No. 1907/2006, REACH Annex XVII Substances subject to restriction on marketing and use as amended Not listed.

Directive 2004/37/EC: on the protection of workers from the risks related to exposure to carcinogens and mutagens at work, as amended

### Not listed.

Directive 92/85/EEC: on the safety and health of pregnant workers and workers who have recently given birth or are breastfeeding, as amended

### Not listed.

### Other EU regulations

Directive 2012/18/EU on major accident hazards involving dangerous substances

Not listed.

Directive 98/24/EC on the protection of the health and safety of workers from the risks related to chemical agents at work, as amended

Distillates (Petroleum), Hydrotreated Light (CAS 64742-47-8)

Solvent Naphtha (Petroleum), Medium Aliph. (CAS 64742-88-7)

Directive 94/33/EC on the protection of young people at work, as amended

### Solvent Naphtha (Petroleum), Medium Aliph. (CAS 64742-88-7)

Other regulations	The product is classified and labelled in accordance with EC directives or respective national laws. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006.
National regulations	Follow national regulation for work with chemical agents.
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.

### SECTION 16: Other information

List of abbreviations	Not available.
References	Not available.
Information on evaluation method leading to the classification of mixture	The classification for health and environmental hazards is derived by a combination of calculation methods and test data, if available.
Full text of any H-statements not written out in full under Sections 2 to 15	H304 May be fatal if swallowed and enters airways.

Revision information Training information Disclaimer H372 Causes damage to organs through prolonged or repeated exposure.

This document has undergone significant changes and should be reviewed in its entirety.

Follow training instructions when handling this material.
