SPECIFICATIONS:

Number of Motors:	1
Stage:	Double
Voltage (V):	220-240
Frequency (Hz):	50
Cooling:	By Pass
Max Power Supplied to Power Tool Socket (W)	1400
Max Power (W):	1200
Water Lift (mm H ₂ O):	2400
Air Flow (m ³ /h):	215
LpA Sonorous 3mt (dB(A)):	60
Total Tank Capacity (lt):	21
Weight (kg):	8

ESTRO SHAMPOO MACHINE

**1 Year
Warranty**

Code: **ESTRO**
\$945 + GST

STANDARD ACCESSORIES

OPTION: COMPLETE CARPET TOOL

Code: **ACLA230/C**
\$195 + GST

A professional shampoo extraction vacuum:

- 5M Integrated Vacuum and Solution Hose Assembly
- Large Capacity 37L Waste Tank
- High Impact PVC Construction

UNIEN ISO
9001:2008

Should I invest in a carpet extraction-cleaning machine ?

If you are cleaning automotive carpet and upholstery, then you probably do need a machine. Machines clean much more thoroughly than hand cleaning. Extraction cleaning machines are faster than cleaning by hand, so if hand cleaning creates a bottle-neck in your shop you definitely need a machine.

Why is extraction cleaning better than hand cleaning ?

- Hand cleaning requires mechanical cleaning action – usually scrubbing by hand or brush to force cleaning solution into carpet and upholstery. Abrasion causes wear and eventually damage. Extraction cleaning is non-mechanical.
- Once the cleaning solution has done its work, it must be removed. Hand cleaners require a blotting medium to remove liquid laden with dirt and oils. The problem here is that the blotting material does not remove all the liquid. Stains won't return with a shampoo machine because the underlying soiled liquid is removed.
- The third difference between hand and machine cleaning is the quantity of cleaning solution required. Extraction cleaning machines offer complete cleaning, all the way down to the backing in carpets and down to cushioning on upholstery. The user can control the amount of liquid used in an extraction-cleaning machine.

Replacement Accessories - ARES

Crevice Tool 36mm

Code: **ACLP036**

Round Brush

Code: **VP0004**

Curtain Tool

Code: **VP0616**

Plastic Wand

Code: **VP06158**

Machine Connection Cuff 36mm

Code: **ACMA036LF**

Hose Cuff 36mm – Tool End

Code: **VP0622**
