CBH30

Cable holders for securing electrical cables

FEATURES

- The design of the cable holder allows for a variety of sizes of cable, due to the variable adjustment and locking points

APPLICATIONS

- For securing electrical cable from a diameter of 30mm up to 100mm, to a power pole or beam

BENEFITS

- ♦ Dual support legs which allow for dual fixing to a pole
- ♦ Optional fixing methods, either using a bolt or band clamp strapping
- ♦ Material: The clamp body is made from mild steel, which has been blanked and formed, then hot-dip galvanised
- ♦ The strap is made from 304 grade stainless steel
- ♦ The pin is zinc die cast
