

# Cable Joiner's Kit

## Complete MV / HV Tool Set

Top of the line specialty tools to prep medium voltage cables with ease - from outer jacket stripping to semi-con scoring and through insulation chamfering, these kits ensure a precise cable prep every time.

**Developed in collaboration with certified trainers for medium voltage cable prep classes, the Cable Joiner's Kit from Ripley is designed to address any MV / HV cable from 10 mm - 60 mm (0.39" to 2.36") outer diameter.**

**Technicians in the field need to be able to rely on their tools being exactly where they need them, when they need them. With Ripley's kit at hand there is no confusion and no need to resort to a knife, helping to reduce jobsite injuries.**

Each kit features 9 tools plus replacement blades to prep MV / HV cable: The US15 to ring and spiral the jacket, the new jacket lifting tool & serrated flat nose pliers for jacket peeling, the US02 / SCS & US01 for semi-con & insulation stripping and the US10 for insulation chamfering, a ruler and a pair of cutting pliers for a clean, exact finish every time.

### Features

- Rugged carrying case to keep tools safe
- Custom laser cut foam snugly fits tools to prevent damage in transport to and from the field
- Includes Ripley's top underground tools for peelable cable - the US15, US02, SCS, US01, US10 & US14
- Introducing the new jacket lifting tool - Ripley's solution to years of cut hands while peeling tough outer jackets over sharp concentric neutrals
- Increases safety by eliminating the use of traditional knives, reducing the risk of cuts or lacerations
- Customization possible - contact Ripley for additional tool replacements

Image	Part Number	Name	Description
