NR1986eCH / NR1986eMB / NR1986eBN
 NR1986eBG / NR1986eBZ / NR1986eMW
 NR1986eGM

INSTALLATION INSTRUCTIONS

GENERAL INSTRUCTIONS

The following instructions provide general installation guidelines for Mecca Bathroom Accessories.

Specific steps may vary depending on the product configuration and model.

Please ensure installation is carried out by a suitably qualified tradesperson.

Prior to drilling, verify that there are no concealed services (e.g. water pipes, electrical wiring) behind the selected installation area.

Do not substitute mechanical fixings with adhesive or silicone-based products.

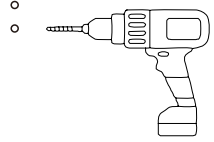

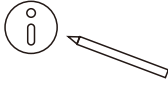

Avoid installing the product on surfaces subject to constant vibration, movement, or structural instability.

MAINTENANCE AND CARE

Periodically inspect the fittings to ensure they remain secure. Re-tighten fixings as required.

Use a soft cloth and mild soapy water to clean the surface. Do not use harsh chemicals, abrasive cleaners, acidic substances, or scouring pads, as these may damage the finish.

INSTALLATION STEPS

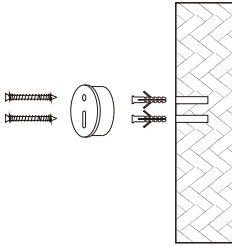

1. Mark the mounting holes

Position the mounting bracket against the wall at the desired location.
Mark the centre of each mounting hole.

2. Drill the mounting holes

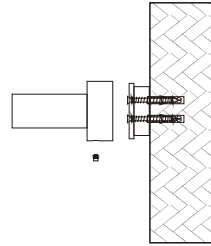

Using a 6mm drill bit, drill into the marked positions to an appropriate depth for the supplied wall plugs.

3. Fix the mounting bracket

Insert the wall plugs flush into the holes, align the bracket, and secure it with the supplied screws.

Note: Use suitable wall anchors for hollow or cavity walls to ensure load-bearing strength.

4. Attach the Accessory

Place the accessory body over the mounting bracket. Secure in position by tightening the grub screw with the Allen key provided.

Confirm that the accessory is firmly fixed and does not wobble.
