BIA-AUTOSUB-X

(Submersible pressure pump)

The Autosub submersible pump is specially designed and manufactured for the rainwater industry. Designed for use with a floating inlet kit, AutoSub-X ensures that the sweetest cleanest water is drawn from the body of the stored water, minimising sediment or floating contaminants. It is intended for use in household applications for the automatic supply of clean water which contains no fibres.

- ✓ Max Head 45m
- ✓ Max Flow 100 l/min

- ✓ Fixed auto float switch to prevent dry running
- ✓ Digital sensor control monitors the system pressure and flow in real time
- ✓ Industrial motor for best performance and longevity in operation

APPLICATIONS:

- Household water supply
- Drinking water
- Gardening
- Inside rainwater tanks
