OXYGEN PRO GRANDE CARTRIDGE - ADORE

Discover unparalleled odour control with the Oxygen Pro Grande Cartridge in Adore fragrance, a subtle fresh apple, amber and spice scent. Powered by Oxy-Gen, this system guarantees continuous fresh scent and effective odour control. The advanced technology ensures precise and consistent fragrance delivery throughout the cartridge's life.

Compliant with CARB, EU, IFRA & REACH regulations, the cartridge contains 35ml of pure fragrance oil, providing approximately 7 times more fragrance than standard cans. Adjust the fragrance intensity to your preference - strong (30 days), normal (60 days), or mild (90 days).

Effective fragrant odour control is enhanced by Neutra-lox, a proprietary odour eliminator effective against various odours. The cartridge is safe, containing no added solvents or alcohols, making it suitable for any facility. Its eco-friendly design excludes CFCs, VOCs, or propellants, offering a constant, discreet, and noise-free release of fragrance. After use, safely dispose of the cartridge in a plastic recycling bin.
