

ROCKSTOCK AMENITIES

A Single Use Plastic Alternative

Designed to help reduce the amount of single use plastics in the hotel industry, these premium bathroom amenities are packaged in *Rockstock* - a treeless paper made from waste materials, and feature more sustainable essential items for your guests, including a compostable shower cap!

Rockstock is an amazing tree free paper that helps reduce deforestation, it is made from 80% Calcium Carbonate (in the form of quarry waste). No bleaches, acids, alkali or other potentially dangerous ingredients are used in its production, and it gets its naturally white colour from the high concentration of calcium carbonate which is naturally white.

As well as the environmental benefits of its *Rockstock* packaging, we have eliminated all but one bit of plastic from the contents as well.

PRODUCT	CODE	QUANTITY
COMPOSTABLE PLA SHOWER CAP & HAIR TIE	ROCKSC	CT 250
COLGATE DENTAL KIT WITH BAMBOO TOOTHBRUSH	ROCKTB	CT 125
SHAVING KIT WITH COMPOSTABLE HANDLE	ROCKRP	CT 125
MULTI BAG	ROCKSB1	CT 250
