

Orford FMB30

The FMB series of bottom mounted chillers offer versatile and energy efficient solutions for general storage and merchandising.

Well-constructed body with long established reliable motors now offers additional energy reducing features to lower your energy bills.

Long life LED lights offer brilliant merchandising “cut through” and additional energy savings. Night time light switch included as standard.

Better product visibility – warm air convected up the glass reduces condensation to ensure product visibility in higher humidity environments.

Heat Reflective Low E Glass Doors coupled with Argon increases thermal properties and increases tropical ratings whilst reducing energy consumption.

Reach-in Display Refrigerator for General Products including perishables

FMB30	2 Door Vertical Display Refrigerator
Construction	Powder Coated galvanized steel Interior/Exterior
Capacity	900 Litres
Dimensions	1130W x 735D x 2000H
Weight	210Kg
Operating Temp	0° - 5° c.
Ambient Temp Range	0° - 40° c.
Power Point	230 - 240v 50Hz. (Standard GPO)
Thermometer	Mechanical
Shelves	Height Adjustable Heavy Duty Non Flex PVC Coated Steel. Close spacing wires.
Condensate	Automatic Condensate Disposal
Doors	2 x Self Closing Double Glazed Heat Reflective Low E Safety Glass – Argon filled
Footings	Heavy Duty „Easy Move” Castors, Lockable Front
Compressor	Danfoss
Interior Light	LED (on/off switch inc)
Refrigerant	R134a
Climate Class	Class 5
MEPS	Compliant
