

HYPOFOAM PLUS

Premium Concentrated Foaming Chlorinated Alkali

Description:

Hypofoam Plus is a high foaming chlorinated alkali suitable for washdown in all food processing areas. Hypofoam Plus can be used with venturi foamers and can also be used with air injection foamers to create a thick creamy foam to adhere to all vertical surfaces. Hypofoam Plus has increased alkalinity when compared to Hypofoam and therefore best for high fat and oily areas around the plant like boning rooms, digesters and rendering plants. NZFSA Approved.

Hypofoam Plus is a unique blend of specialized surfactants, alkali's, corrosion inhibitor and chlorine which provides:

- fast acting penetration of soils
- removal of stubborn proteins, blood & fat
- soil suspension agents to prevent redeposition
- active chlorine for sanitizing
- prevention of corrosion

Hypofoam Plus is completely miscible with water at all concentrations.

Directions for use:

Hand/Manual cleaning: Use at the rate of 3-4 ml per litre of water, depending on the degree of soiling.

Foam cleaning steps.

- 1: Meter through Venturi/Foam unit at a breakdown of 20:1 to 100:1 with water depending on nature of foam required.
- 2: Leave to act for 3-5 minutes for sanitizing
- 3: Rinse with potable water.

Safety Information:

Hypofoam Plus is a corrosive substance. Appropriate care must be taken when handling Hypofoam Plus. Avoid contact with eyes and skin and wear protective clothing.

- If poisoning occurs contact a doctor or Poisons Information Centre. Phone New Zealand 0800 764 766.
- If aspirated into the lungs, remove from exposure.
- If swallowed, do NOT induce vomiting, give water to drink and seek medical attention.
- If in eyes, hold eyes open, and flood for at least 15 minutes and see a doctor.
- If skin or hair contact occurs, remove contaminated clothing and wash skin thoroughly with water.

For further information regarding product safety and handling, refer to the Material Safety Data Sheet and Product Label.

24 Hour toll free emergency phone no: 0800 243 622

Made in New Zealand by Integra Industries P: 0800 667 843

Features:

- MPI Approved C38 (All animal product except dairy)
- Dairy Approved
- Excellent removal of fats and proteins
- Cleans and Sanitises
- Premium blend of alkalis
- Biodegradable

Areas of use:

- Red Meat processing and abattoirs
- Dairy Processing
- Breweries
- Seafood processors
- Butcheries
- Egg and Poultry processors
- Fruit Juice and Pulp processors

Physical & Chemical Properties:

FORM: Liquid

COLOUR: Clear pale yellow

ODOUR: Chlorine

pH: 13.3

SPECIFIC GRAVITY: 1.2
