SAFETY DATA SHEET

EC6 FOAMING HAND WASH ANTIBACTERIAL

Infosafe No.: 7EFK6
ISSUED Date : 23/04/2021
ISSUED by: INTEGRA INDUTRIES LTD

NOT CLASSIFIED AS HAZARDOUS

1. Identification

GHS Product Identifier
EC6 FOAMING HAND WASH ANTIBACTERIAL

Product Code
C2073851L05

Company name
INTEGRA INDUSTRIES LTD

Address
21 A GROSVENOR ST
DUNEDIN

Telephone/Fax Number
Tel: 03 455 6805

Emergency phone number
0800 764 766

Recommended use of the chemical and restrictions on use
Antibacterial foaming handsoap

Additional Information
For advice in emergencies contact:
Poisons Information Centre (Australia): 131 126
National Poisons Centre (New Zealand): 0800 764 766

Disclaimer
Integra Industries Ltd believes the information in this document to be accurate as at the date of preparation noted in the header of the SDS, but to the maximum extent permitted by law, Integra accepts no responsibility for any loss or damage caused by any person acting or refraining from action because of this information.
The provision of this information should not be construed by anyone as a recommendation to use this product. In particular, no one should use any product in violation of any patent or other intellectual proprietary rights or in breach of any statute or regulation.
Users should rely on their own knowledge and inquiries and make their own determination as to the applicability of this information in relation to their particular purposes and specific circumstances. Each user should read this SDS and consider the information in the context of how the product will be handled and used in the workplace and in conjunction with other substances or products.

2. Hazard Identification

GHS classification of the substance/mixture
Not classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) including Work, Health and Safety Regulations, Australia.
Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

3. Composition/information on ingredients

Ingredients

Name	CAS	Proportion
Surfactants	N/A	<10 %
Chlorhexidine digluconate	18472-51-0	<0.5 %
polyhexamethylene biguanide hydrochloride	27083-27-8	<0.1 %
Ingredients determined not to be hazardous	-	Balance

4. First-aid measures

Inhalation
If inhaled, remove affected person from contaminated area and keep at rest in a position comfortable for breathing. Keep at rest until recovered. If symptoms develop and/or persist seek medical attention.

Ingestion
If swallowed, do NOT induce vomiting. Wash/rinse out mouth thoroughly with water. Seek medical attention.

Skin
The product is designed for skin contact. If there is a reaction, remove all contaminated clothing and wash affected area thoroughly with soap and water. Wash contaminated clothing before reuse or discard. If symptoms develop and/or persist seek medical attention.

Eye contact
If in eyes, hold eyelids apart and flush the eyes continuously with running water. Remove contact lenses, if present and easy to do. Continue flushing for several minutes until all contaminants are washed out completely. Seek medical attention.

First Aid Facilities
Eyewash and normal washroom facilities.

Advice to Doctor
Treat symptomatically.

Other Information
For advice in emergencies contact:
Poisons Information Centre (Australia): 131 126
National Poisons Centre (New Zealand): 0800 764 766

5. Fire-fighting measures

Suitable Extinguishing Media
Use extinguishing media appropriate to surrounding fire, e.g. water fog, dry agent or foam.

Hazards from Combustion Products
Non combustible material.

Specific Hazards Arising From The Chemical
This product is non combustible.

Precautions in connection with Fire
Fire fighters should wear full protective clothing and self-contained breathing apparatus (SCBA) operated in positive pressure mode. Fight fire from safe location.

6. Accidental release measures

Emergency Procedures
Wear appropriate eye protection if risk of mist, splashes or droplet formation exists. Increase ventilation. If possible contain the spill. Place inert absorbent material onto spillage. Collect the material and place into a suitable labelled container. Do not dilute material but contain. Dispose of waste according to the applicable local and national regulations. If contamination of sewers or waterways occurs inform the local water and waste management authorities in accordance with local regulations. As a water based product, if spilt on electrical equipment the product will cause short-circuits.

7. Handling and storage

Precautions for Safe Handling
Avoid eye contact. Use in a well ventilated area. Keep containers sealed when not in use. Prevent the build up of mists or vapours in the work atmosphere.

Conditions for safe storage, including any incompatibilities
Store in a cool, dry, well-ventilated area, out of direct sunlight. Store in suitable, labelled containers. Keep containers tightly closed. Do not introduce foreign materials into containers. Do not dump unused material back into the original container with the bulk material. Ensure that storage conditions comply with applicable local and national regulations. Protect from freezing.

8. Exposure controls/personal protection

Occupational exposure limit values
No exposure standards have been established for the mixture. However, over-exposure to some chemicals may result in enhancement of pre-existing adverse medical conditions and/or allergic reactions and should be kept to the least possible levels.

Biological Limit Values
No biological limits allocated.

Appropriate engineering controls
Use with good general ventilation. If mists or vapours are produced, local exhaust ventilation should be used.

Personal Protective Equipment
For normal use as hand wash, no PPE is required.
Avoid contact with eyes. If risk of splashes and for bulk handling of the product eye protection should be used, i.e. safety glasses or face shield.

9. Physical and chemical properties

Properties	Description	Properties	Description
Form	Liquid	**Appearance**	Clear thin yellow liquid
Colour	Yellow	**Odour**	Non-perfumed
Boiling Point	100°C	**Solubility in Water**	Miscible with water in all proportions
Specific Gravity	1.00 - 1.10	**pH**	6.0 - 6.5
Flash Point	Not applicable	**Flammability**	Not flammable

10. Stability and reactivity

Chemical Stability
Stable under normal conditions of storage and handling.

Conditions to Avoid
Extremes of temperature and direct sunlight.

Incompatible materials
Compatible with all materials.

Hazardous Decomposition Products
Thermal decomposition may result in the release of oxides of carbon and nitrogen, smoke and other toxic fumes.

Possibility of hazardous reactions
Not known

Hazardous Polymerization
Not known

11. Toxicological Information

Toxicology Information
No toxicity data available for this material. The available acute toxicity data for the ingredient/s is/are given below.

Acute Toxicity - Oral
Chlorhexidine Digluconate CAS 18472-51-0
LD50 oral (rat): > 2000 mg/kg
Dermal median lethal dose (rabbit): > 2000 mg/kg

Ingestion
Ingestion of this product may irritate the gastric tract causing nausea and vomiting.

Inhalation
Inhalation of product vapours may cause irritation of the nose, throat and respiratory system.

Skin
May be irritating to skin. The symptoms may include redness, itching and swelling.

Eye
May be irritating to eyes. The symptoms may include redness, itching and tearing.

Respiratory sensitisation
Not expected to be a respiratory sensitiser.

Skin Sensitisation
Not expected to be a skin sensitiser.

Germ cell mutagenicity
Not considered to be a mutagenic hazard.

Carcinogenicity
Not considered to be a carcinogenic hazard.

Reproductive Toxicity
Not considered to be toxic to reproduction.

STOT-single exposure
Not expected to cause toxicity to a specific target organ.

STOT-repeated exposure
Not expected to cause toxicity to a specific target organ.

Aspiration Hazard
Not expected to be an aspiration hazard.

12. Ecological information

Ecotoxicity
No ecological data available for this material. However, the available acute toxicity data for the ingredient/s is/are given below.

Chlorhexidine Digluconate CAS 18472-51-0
Acutely toxic towards fish, acutely very toxic to daphnia magna and algae.
Acute toxicity (Fish) 2,08 mg/L (as pure chlorhexidine digluconate)
Acute toxicity (Daphnia magna) 0,087 mg/l (as pure chlorhexidine digluconate)
Acute toxicity (Algae) 0,081 mg/l (as pure chlorhexidine digluconate)

Persistence and degradability
Surfactants used in the formulation are readily biodegradable

Mobility
Not available

Bioaccumulative Potential
Not available

Other Adverse Effects
Not available

Environmental Protection
Avoid large quantities discharge to waterways

13. Disposal considerations

Disposal considerations
The disposal of the spilled or waste material must be done in accordance with applicable local and national regulations.

Waste Disposal
Dispose of in accordance with local/regional/national/international regulations.

14. Transport information

Transport Information
Road and Rail Transport (ADG Code):
Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG Code) (7th edition).

Marine Transport (IMO/IMDG):
Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.

Air Transport (ICAO/IATA):
Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

U.N. Number
None Allocated

UN proper shipping name
None Allocated

Transport hazard class(es)
None Allocated

IMDG Marine pollutant
No

Transport in Bulk
Not available

Special Precautions for User
Not available

15. Regulatory information

Regulatory information
Not classified as Hazardous according to the Globally Harmonised System of classification and labelling of chemicals (GHS) including Work, Health and Safety regulations, Australia.
Not classified as a Scheduled Poison according to the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).

Poisons Schedule
Not Scheduled

16. Other Information

Date of preparation or last revision of SDS
SDS reviewed and reissued: 18 November 2020
SDS reviewed: Aug 2018
SDS created: May 2016
