

SAFE

Graffiti REMOVER

A high-quality product formulated to tackle heavy duty tasks, like the safe, effective removal of graffiti, stickers, glue/gum in schools, council properties and public areas, with little or no damage to the material beneath.

Safely removes graffiti from:

- walls (including red bricks)
- floors
- carpets
- furniture
- upholstery
- wood
- concrete
- vinyl
- tile
- glass
- indoors/outdoors
- buildings/vehicles/boats

Test for colour fastness on a small area. Check underlying material for damage, e.g carpet backing-glue is not lifting.

Paint/ink removal:

- Apply liberally over graffiti.

- Wait 5-10 minutes.
- Scrub off with hard-bristled brush.
- Repeat until all paint layers are removed.
- High-pressure clean large areas with water.
- Best to remove graffiti within 24 hours.

Glue, gum, sticker removal:

- Apply liberally over gum.
- Wait 2-5 minutes for gum to soften.
- Lift off label/glue/gum with a putty knife.
- Reapply to any residue.
- Wait 2 minutes.
- Scrub residue off with hard-bristled brush.
- Rinse with water.
- Carpets: wipe with a damp cloth and blot dry.

Apply easily using a spray bottle, our rugged wipes, or a rag. See product safety data sheet for more information.
