

Digital floor scale with low platform seca clara 803

new

- ▲ Safe foothold with non-slip covering . extremely low platform . high stability . low weight . energy-saving automatic switch-off

Simple elegance, precise results

The seca clara 803 is the right choice when reliable weight control is called for: the floor scale always delivers exact results and is simple to operate also without instructions. It is also easy to transport due to being lightweight. A comfortable scale which makes weighing easy also for older people. Moreover, the high stability of the seca clara 803 guarantees a long life even when frequently used – a characteristic which predestines the scale for use in hotels or fitness studios.

Safe footing due to non-slip platform

The seca clara 803 is fitted with a non-slip covering which guarantees a safe, comfortable footing. And non-slip rubber feet give the scale additional stability.

Extremely low platform

Thanks to the four load cell technology applied, seca can produce scales which are not only highly precise but also have an attractive flat design. For example, the seca clara 803 has an extremely low platform of just 35 millimetres which makes the scale easy to mount. And, due to the special two-component material, the covering is both pleasantly soft and hard-wearing.

High stability

The seca clara 803 is made of high-quality plastic with an extremely hard surface. The scale is therefore well protected against damage caused by bumps or scratches. Both the smooth, hard-wearing surface and the robust covering are easy to clean – even with alcohol.

Mobile due to low weight

The seca clara 803 weighs only 1.4 kilograms and is therefore very easy to transport and ideal for mobile use.

Low-maintenance due to automatic switch-off

You can always rely on this scale: the energy-saving automatic switch-off and the low power consumption make up to 12,000 weighings possible with just one set of batteries. But, should it be necessary to change the batteries, this is indicated by the seca clara 803 in good time.

Technical data

seca clara 803

Capacity: 150 kg / 330 lbs / 23.5 sts

Graduation: 100 g / 0.2 lbs

Dimensions, scale (WxHxD): 325 x 35 x 315 mm

Digit height: 28 mm

Weight: 1.4 kg

Power supply: batteries

Functions: auto-HOLD, tip-on automatic switch-on, kg/lbs/sts switch-over, automatic switch-off
