

# PNEUMATIC TOOLS

LIGHTER | QUIETER | MORE POWERFUL

## M7-NC4650H

### 1/2" DRIVE AIR IMPACT WRENCH

- o Powerful 650 ft-lb Max Torque
- o Compact length, only 104mm
- o Patented EZ grease anvil, providing very easy application of grease through the anvil to the centre of the tool, ensuring maximum power is always maintained
- o Jumbo hammer type

#### EASY GREASE ANVIL SERIES

Patented EZ Grease Anvil was created to offer users easier maintenance, prolonging tool life and regaining lost power. With an industry first greaseable hammer mechanism, users can inject grease directly into one of the highest wear points of any impact wrench through the center of the anvil, increasing the power output to 'like new' after continual use.

EZ Grease Anvil allows the grease to quickly flow through the anvil and into the casing to coat and lubricate the rotating parts. Benefits of the patented EZ Grease Anvil include:

- o Improved torque
- o Improved lifespan of the impact wrench
- o Quicker, easier and cheaper maintenance
- o More efficient use of the impact wrench
