SISTEMA DE MICRO-LUBRIFICAÇÃO: SE INSTALADO NA MÁQUINA, O USO DE UMA MÁSCARA PROTETORA DAS VIAS AÉREAS É OBRIGATÓRIO. É ACONSELHÁVEL MANTER O LOCAL VENTILADO.

СИСТЕМА МИКРОСМАЗКИ: ЕСЛИ СИСТЕМА УСТАНОВЛЕНА, ОБЯЗАТЕЛЬНО ИСПОЛЬЗОВАТЬ ЗАЩИТНУЮ МАСКУ И ПРОВЕТРИВАТЬ ПОМЕЩЕНИЕ.

English

Disposal of Old Electrical & Electronic Equipment (Applicable in the European Union and other European countries with separate collection systems)

This symbol on the product or on its packaging indicates that this product shall not be treated as household waste. Instead it shall be handed over to the applicable collection point for the recycling of electrical and electronic equipment. By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product. The recycling of materials will help to conserve natural resources. For more detailed information about recycling of this product, please contact your local city office, your household waste disposal service or the shop where you purchased the product.

Français

Traitement des appareils électriques et électroniques en fin de vie (Applicable dans les pays de l'Union Européenne et aux autres pays européens disposant de systèmes de collecte sélective)

Ce symbole, apposé sur le produit ou sur son emballage, indique que ce produit ne doit pas être traité avec les déchets ménagers. Il doit être remis à un point de collecte approprié pour le recyclage des équipements électriques et électroniques. En s'assurant que ce produit est bien mis au rebut de manière appropriée, vous aiderez à prévenir les conséquences négatives potentielles pour l'environnement et la santé humaine. Le recyclage des matériaux aidera à conserver les ressources naturelles. Pour toute information supplémentaire au sujet du recyclage de ce produit, vous pouvez contacter votre municipalité, votre déchetterie ou le magasin où vous avez acheté le produit.

Deutsch

Entsorgung von gebrauchten elektrischen und elektronischen Geräten (Anzuwenden in den Ländern der Europäischen Union und anderen europäischen Ländern mit einem separaten Sammelssystem für diese Geräte)

Das Symbol auf dem Produkt oder seiner Verpackung weist darauf hin, dass dieses Produkt nicht als normaler Haushaltsabfall zu behandeln ist, sondern an einer Annahmestelle für das Recycling von elektrischen und elektronischen Geräten abgegeben werden muss. Durch Ihren Beitrag zum korrekten Entsorgen dieses Produkts schützen Sie die Umwelt und die Gesundheit Ihrer Mitmenschen. Umwelt und Gesundheit werden durch falsches Entsorgen gefährdet. Materialrecycling hilft den Verbrauch von Rohstoffen zu verringern. Weitere Informationen über das Recycling dieses Produkts erhalten Sie von Ihrer Gemeinde, den kommunalen Entsorgungsbetrieben oder dem Geschäft, in dem Sie das Produkt gekauft haben.

Español

Tratamiento de los equipos eléctricos y electrónicos al final de su vida útil (Aplicable en la Unión Europea y en países europeos con sistemas de recogida selectiva de residuos)

Este símbolo en su equipo o su embalaje indica que el presente producto no puede ser tratado como residuos domésticos normales, sino que deben entregarse en el correspondiente punto de recogida de equipos eléctricos y electrónicos. Asegurándose de que este producto es desechado correctamente, Ud. está ayudando a prevenir las consecuencias negativas para el medio ambiente y la salud humana que podrían derivarse de la incorrecta manipulación de este producto. El reciclaje de materiales ayuda a conservar las reservas naturales. Para recibir información detallada sobre el reciclaje de este producto, por favor, contacte con su ayuntamiento, su punto de recogida más cercano o el distribuidor donde adquirió el producto.

Nederlands

Verwijdering van Oude Elektrische en Elektronische Apparaten (Toepasbaar in de Europese Unie en andere Europese landen met gescheiden ophaalsystemen)

Het symbool op het product of op de verpakking wijst erop dat dit product niet als huishoudafval mag worden behandeld. Het moet echter naar een plaats worden gebracht waar elektrische en elektronische apparatuur wordt gerecycled. Als u ervoor zorgt dat dit product op de correcte manier wordt verwijderd, voorkomt u mogelijk voor mens en milieu negatieve gevolgen die zich zouden kunnen voordoen in geval van verkeerde afvalbehandeling. De recycling van materialen draagt bij tot het vrijwaren van natuurlijke bronnen. Voor meer details in verband met het recyclen van dit product, neemt u het best contact op met de gemeentelijke instanties, het bedrijf of de dienst belast met de verwijdering van huishoudafval of de winkel waar u het product hebt gekocht.

Svenska

Omhändertagande av gamla elektriska och elektroniska produkter (Användbar i den Europeiska Unionen och andra Europeiska länder med separata insamlingsystem)

Symbolen på produkten eller emballaget anger att produkten inte får hanteras som hushållsavfall. Den skall i stället lämnas in på uppsamlingsplats för återvinning av el- och elektronikkomponenter. Genom att säkerställa att produkten hanteras på rätt sätt bidrar du till att förebygga eventuellt negativa miljö- och hälsoeffekter som kan uppstå om produkten kasseras som vanligt avfall. Återvinning av material hjälper till att bibehålla naturens resurser. För ytterligare upplysningar om återvinning bör du kontakta lokala myndigheter eller sophämningsjämnst eller affären där du köpte varan.

Italiano

Trattamento del dispositivo elettrico od elettronico a fine vita (Applicabile in tutti i paesi dell'Unione Europea e in quelli con sistema di raccolta differenziata)

Questo simbolo sul prodotto o sulla confezione indica che il prodotto non deve essere considerato come un normale rifiuto domestico, ma deve invece essere consegnato ad un punto di raccolta appropriato per il riciclo di apparecchi elettrici ed elettronici. Assicurandovi che questo prodotto sia smaltito correttamente, voi contribuirete a prevenire potenziali conseguenze negative per l'ambiente e per la salute che potrebbero altrimenti essere causate dal suo smaltimento inadeguato. Il riciclaggio dei materiali aiuta a conservare le risorse naturali. Per informazioni più dettagliate circa il riciclaggio di questo prodotto, potete contattare l'ufficio comunale, il servizio locale di smaltimento rifiuti oppure il negozio dove l'avete acquistato.

Język polski

Pozbycie się Zużytego Sprzętu (Stosowane w krajach Unii Europejskiej i w pozostałych krajach europejskich mających własne systemy zbiórki)

Taki symbol na produkcie lub jego opakowaniu oznacza, że produkt nie może być traktowany jako odpad komunalny, lecz powinno się go dostarczyć do odpowiedniego punktu zbiórki sprzętu elektrycznego i elektronicznego, w celu recyklingu. Poprzez upewnienie się, że dyspozycja dotycząca produktu jest poprawna, zapobiega się potencjalnym negatywnym wpływom na środowisko oraz zdrowiu ludzi, jakie mogłyby wystąpić w przypadku niewłaściwego postępowania. Recykling materiałów pomoże w ochronie naturalnych źródeł. W celu uzyskania bardziej szczegółowych informacji na temat recyklingu tego produktu, należy skontaktować się z naszym lokalnym biurem, ze służbami oczyszczania miasta lub ze sklepem, w którym zakupiony został ten produkt.

Norsk

Avhending av gamle elektriske og elektroniske apparater (gjelder i EU og andre europeiske land med separat innsamlingsystem)

Dette symbolet på produktet eller innpakningen indikerer at dette produktet ikke må håndteres som husholdningsavfall. I stedet skal det leveres inn til spesifikt innsamlingspunkt for gjenvinning av det elektriske og elektroniske utstyret. Ved å sørge for at dette produktet avhendes på korrekt måte, vil du hjelpe til med å forhindre potensielle negative påvirkninger på miljøet og helse, som ellers kan være resultatet av feilaktig avfallshåndtering av dette produktet. Gjenvinning av disse materialene vil hjelpe til med å ta vare på våre naturressurser. For mer informasjon om gjenvinning av dette produktet, kan du kontakte lokale myndigheter.

Magyarul

Felhasználható az Európai Unió és egyéb európai országok szelektív hulladékgyűjtési rendszereiben)

Ez a szimbólum a készülékem vagy a csomagolásán azt jelzi, hogy a terméket ne kezelje háztartási hulladékként. Kérjük, hogy az elektromos és elektronikai hulladék gyűjtésére kijelölt gyűjtőhelyen adja le. A felesleges vagy termékeknek helyes kezelésával segíthet megelőzni a környezeti és az emberre egészséges károsodást, mely bekövetkezhetne, ha nem követi a hulladék kezelés helyes módját. Az anyagok, újraszámolásba segít a Természeti Erőforrások megőrzésében. A termék újraszámolásba érdekében továbbra is információkat forduljon a helyi önkormányzatokhoz, a helyi hulladékgyűjtő szolgálatához vagy ahhoz az üzlethez, ahol a termék megvásárolta.

Česky

Nakládání s nepotřebným elektrickým a elektronickým zařízením (platné v Evropské unii a dalších evropských státech uplatňujících oddělený systém sběru)

Tento symbol umístěný na výrobku nebo jeho balení upozorňuje, že s výrobkem po ukončení jeho životnosti by nemělo být nakládáno jako s běžným odpadem z domácnosti. Místo toho by měl být odložen do speciálního místa, určeného k recyklaci elektrických výrobků a zařízení. Dodržování této instrukce zabrání negativním dopadům na životní prostředí a zdraví lidí, které naopak může být způsobeno nesprávným nakládáním s výrobkem při jeho likvidaci. Recyklováním materiálů, z něhož je výrobek, pomůžete zachránit přírodní zdroje. Pro získání dalších informací o recyklaci tohoto výrobku kontaktujte prosím váš místní nebo prodejní, v nřz jste výrobek zakoupili.

Slovensky

Likvidácia starých elektrických a elektronických zariadení (Plati v Európskej únii a ostatných európskych krajinách so zavádzaným separovaným zberom)

Tento symbol na výrobku alebo obale znamená, že s výrobkom nemožno byť nakladané ako s domovým odpadom. Miesto toho je potrebné ho doručiť do vyhradeného zberného miesta na recykláciu elektrozariadení. Tým, že zaisíte správne naskladovanie, pomôžete zabrániť potenciálnemu negatívnemu vplyvu na životné prostredie a ľudské zdravie, ktoré by v opačnom prípade hrozil pri nesprávnom nakladaní s týmto výrobkom. Recykláciou materiálov pomôže ochrániť prírodné zdroje. Pre získanie ďalších podrobných informácií o recyklácii tohoto výrobku kontaktujte prosím váš miestny alebo obecný úrad, miestnu službu pre zber domového odpadu alebo predajcu, kde ste výrobok zakúpili.

Türkçe

Eski Elektrikli & Elektronik Ekipmanların Atılması (Avrupa Birliği'nde ve aynı toplama sistemlerine sahip diğer Avrupa ülkelerinde uygulanır)

Ürün veya ambalajı üzerindeki bu simbul, bu ürünü bir ev atığı olarak muamele görmemesi gerektirir. Ürünler, elektronik ve elektronik ekipmanların geri dönüşümü için mevcut olan uygun toplama noktasına teslim edilmelidir. Bu ürünün doğru şekilde atılması sağlandıkça, bu ürüne yanlış maddelerle edilmemesi sonucunda ortaya çıkabilecek ve çevre ile insan sağlığı üzerinde olumsuz etkide bulunabilecek durumların önlenmesine yardımcı olunuz. Malzemelerin geri dönüşümü, doğal kaynakların korunmasına yardımcı olacaktır. Bu ürünün geri dönüşümüne ilgili daha fazla bilgi için, lütfen şehrinizde bulunan yerel ofise, evsel atıklar toplama servisimize veya bu ürünü satın aldığınız mağazaya temasa geçin.

Slovensko

Oddala stare elektrčne in elektronske opreme (veljavno v evropski uniji in ostalih evropskih državah s sistemom zbiranja ločenih odpadkov)

Če se na izdelku ali na njegovi embalaži nahaja ta simbol, pomeni, da z izdelkom ne smete ravnati enako kot z drugimi gospodinjstskimi odpadki. Morate ga oddati na ustrezno zbirno mesto za recikliranje elektrčne in elektronske opreme. S pravilno oddajo tega izdelka boste pomagali preprečiti negativne posledice na okolje in zdravje ljudi, do katerih bi prišlo v primeru neustreznega ravnanja ob odstranitvi tega izdelka. Recikliranje materiala bo pripomoglo k ohranjanju naravnih virov. Podrobnejše informacije o recikliranju tega izdelka lahko dobite pri lokalnem mestni upravi, službi oddajanja gospodinjstskih odpadkov ali v trgovini, kjer ste izdelek kupili. Odpadno elektrčno in elektronsko opremo lahko oddate brezplačno tudi distributerju neposredno ob dobavi elektrčne oz. elektronske opreme.

Русский

Утилизация электрического и электронного оборудования (директива применяется в странах Евросоюза и других европейских странах, где действуют системы раздельного сбора отходов)

Данный знак на устройстве или его упаковке обозначает, что данное устройство нельзя утилизировать вместе с прочими бытовыми отходами. Его следует сдать в специализированный пункт приема бытовых электротехнических отходов. Правильная утилизация данного оборудования поможет предотвратить загрязнение окружающей среды и здоровье людей, поэтому для предотвращения подобных последствий необходимо выполнить специальные требования по утилизации этого изделия. Переработка данных материалов поможет сохранить природные ресурсы. Для получения более подробной информации о переработке этого изделия обратитесь в местные органы городского управления, службу сбора бытовых отходов или в магазин, где было приобретено изделие.

Suomi

Käytöstä poistettujen sähkö- ja elektroniikkalaitteen hävitys (Euroopan Unioni ja muuten Euroopan maiden keräysjärjestelmät)

Symboli, joka on merkitty Tuotesoson tai sen pakkauskseen, osoittaa, että lähtä tuotetta ei saa käsitellä huonekalujenä. Tuote on sen sijaan luovutettava sopivaan sähkö- ja elektroniikkalaitteiden keräyskeskseen hoidettavana keräysjärjestelmässä. Tämän luokan asennettujen laitteiden varmistamisella voidaan estää sen mahdolliset ympäristön ja terveyden haittavaikutukset, jotta voi aiheuttaa muussa tapauksessa ihmisen terveyden epäsäännöllisyyksiä ja sairauksia. Materiaalien keräys ja käsittely on välttämätöntä, jotta voidaan turvata ihmisen terveyden ja ympäristön kunnallisuus.

Dansk

Bortskaffelse af elektrisk og elektronisk udstyr (gælder i EU og andre europæiske lande med egne indsamlingssystemer)

Hvis dette symbol findes på produktet eller på emballagen betyder det, at det pågældende produkt ikke må bortskaffes som almindeligt husholdningsaffald. Du skal i stedet aflevere det på et indsamlingssystem, så det elektriske og elektroniske udstyr kan blive genbragt. Når du bortskaffer produktet korrekt, hjælper du med at forhindre de mulige negative påvirkninger af miljøet eller sundheden, der kan opstå, hvis produktet bortskaffes på uanset måde. Genbrug af materialer er med at bevare naturens ressourcer. Yderligere oplysninger om genbrug af produktet fås på kommunen, på genbrugscentret eller i den butik, hvor du købte produktet.

Português

Tratamento de Equipamentos Eléctricos e Electrónicos no final da sua vida útil (Aplicável na União Europeia e em países Europeus com sistemas de recolha selectiva de resíduos)

Este símbolo, colocado no produto ou na sua embalagem, indica que este não deve ser tratado como resíduo urbano indiferenciado. Deve ser colocado num ponto de recolha destinado a resíduos de equipamentos eléctricos e electrónicos. Assegurando-se que este produto é correctamente depositado, irá prevenir potenciais consequências negativas para o ambiente bem como para a saúde, que de outra forma poderiam ocorrer pelo mau manuseamento destes produtos. A reciclagem dos materiais contribui para a conservação dos recursos naturais. Para obter informação mais detalhada sobre a reciclagem deste produto, por favor contacte o município onde reside, os serviços de recolha de resíduos da sua área ou a loja onde adquiriu o produto.

Αποκομιδή Παλαιών Ηλεκτρικών & Ηλεκτρονικών Εξοπλισµών(χρησι στην Ευρωπαϊκή Ένωση και άλλες Ευρωπαϊκές Χώρες µε ξεχωριστά συστήµατα µερισµάτων)

Το σύµβολο αυτό ερµάνει στο προϊόν ή στη συσκευασία του σηµαίνει ότι το προϊόν δεν πρέπει να ρεχρησιµοποιείται µε τα οικιακά απορρίµατα αλλά πρέπει να παραδοθεί σε ένα κατάλληλο σηµείο ολυκόλυσης ηλεκτρονικών και ηλεκτρικών υλικών προς ανακύκλωση. Με το να βεβαιωθείτε ότι το προϊόν περνάει στα σωστά µέρη, βοηθάτε στην πρόληψη πιθανών αρνητικών επιπτώσεων στο περιβάλλον και την υγεία. Η ανακύκλωση των υλικών θα βοηθήσει στην εξοικονόµηση φυσικών πόρων. Για περισσότερες πληροφορίες σχετικά µε την ανακύκλωση αυτού του προϊόντος, παρακαλούµε επικοινωνήστε µε τις υπηρεσίες αναρρόφησης του δήλου σας ή το κατάστηµα όπου αγοράσατε το προϊόν.

1. INTRODUCTION

This operation instruction manual conforms to the requirements of the 2006/42/EEC Machine Directives and subsequent amendments . In the light of this , special attention has been given to safety aspects and accident prevention in the work-place for each stage in the machine's "life" . Information which could be of particular assistance to the operator has been highlighted .

The "Operating instructions" are an integral part of the machine and should be consulted before , during and after the start up of the machine and whenever else required . The content of these instructions should always be carefully observed .

The observance of the above is the only way to achieve the two fundamental aims of this manual :

- **Optimization of machine performance**
- **Prevent damage to the machine and injury to the operator**

The index of the chapters and the index of the drawings , diagrams and tables is contained in chapter 3 and can be used to help the location of specific information .

CAUTION : BEFORE INSTALLING THE MACHINE , READ THE OPERATING INSTRUCTIONS CAREFULLY

2. INFORMATION ABOUT MAINTENANCE ASSISTANCE

2.1 GUARANTEE

- MACC S.r.l. products are guaranteed against material and manufacturing defects for a period of 12 months from the date of delivery or , if the machine is installed by MACC employees , from the date of machine start up .
- The buyer is only entitled to the replacement of parts which are acknowledged as faulty : carriage and packing are at the buyer's expense . In the event of the above , the following information should be supplied :
 1. Date and number of purchasing document .
 2. Machine model .
 3. Serial number .
 4. Code of any relevant drawings .
- Requests for compensation for the inactivity of the machine will not be accepted .
- The guarantee does not cover uses which are not in line with these operating instructions which are an integral part of the machine . Nor is maintenance covered if the instructions supplied are not observed .
- The guarantee will not cover machines which have undergone unauthorized modifications .
- Modification or tampering with the safety devices is strictly forbidden .

4. DESCRIPTION OF THE MACHINE

4.1 SAFETY STANDARDS COMPLIED WITH DURING THE DESIGN AND CONSTRUCTION OF THE MACHINE

The machine produced by us is in compliance with :

- **2006/42/EEC Machinery Directive .**

The following Standards apply :

- **EN ISO 12100** Safety of machinery. Basic concepts, general principles for design , basic methodology .
- **EN ISO 16093** Safety of machinery . Basic concepts and general principles for design . Specifications and technical principles .
- **EN ISO 13850** Safety of machinery . Emergency stop devices, functional aspects - design principles .
- **EN ISO 4413-14** Safety requirements related to systems and components for hydraulic and pneumatic transmissions .
- **EN 14118** Safety of machinery . Prevention of unexpected start-up .
- **EN 14119** Interlocking devices associated with guards — Principles for design and selection .
- **EN 60204-1** Safety of machinery . Electrical equipment of machines . General requirements .
- **EN 13857** Safety distances to prevent danger zones being reached by the upper limbs .

- **2014/30/UE Directive on electromagnetic compatibility .**

The following Standards apply :

- **EN 55014-1** Electromagnetic compatibility - Requirements for household appliances , electric tools and similar apparatus .
- **EN 61000-3-2** Electromagnetic compatibility – Limits for harmonic current emissions .Electromagnetic compatibility of multimedia equipment - Emission requirements .
- **EN 61000-3-11** Electromagnetic compatibility (EMC) – Limitation of voltage changes , voltage fluctuations and flicker in public low-voltage supply systems .
- **EN 55032** Electromagnetic compatibility of multimedia equipment - Emission requirements .
- **EN 61000-4-2** Electromagnetic compatibility (EMC) Part 4 : Testing and measurement techniques Section 2 : Electrostatic discharge immunity test . EMC Base Publication .
- **EN 61000-4-4** Electromagnetic compatibility (EMC) Part 4-4 : Testing and measurement techniques - Electrical fast transient/burst immunity test .
- **EN 61000-4-6** Electromagnetic compatibility (EMC) Part 4 : Testing and measurement techniques. Section 6 : Immunity to conducted disturbances , induced by radio-frequency fields .

- **2014/35/UE Low Voltage Directive .**

Directive 2003/11/EC Directive 2003/11/EC of the European Parliament and of the Council of 6 February 2003 amending for the 24th time Council Directive 76/769/EEC relating to restrictions on the marketing and use of certain dangerous substances and preparations (pentabromodiphenyl ether , octabromodiphenyl ether)

Directive 2002/44/EC of the European Parliament and of the Council of 25 June 2002 on the minimum health and safety requirements regarding the exposure of workers to the risks arising from physical agents (vibration) (sixteenth individual Directive within the meaning of Article 16(1) of Directive 89/391/EEC) .

4.2 DESCRIPTION OF THE MACHINE AND ITS COMPONENTS

The **SPECIAL 320 CSO** band sawing machine produced by MACC has a sturdy frame made from welded and painted sheet-steel . The upper surface is designed to allow the complete draining away of the cutting fluid . The band holding bow is made of cast-iron and has generous dimensions , providing the cutting unit with the necessary strength and precision . The vice unit is also made of cast-iron and clamps the material to be cut securely . The bar-stop device allows the length required to be present and a constant level of performance for repeated cuts . The blade-holding bow is firmly attached to a reduction unit built onto the motor and to the base by means of a joint which allows 60° rotation to the right . This joint also allows the cutting movement to advance manually or by means or by falling . The coolant pump is fitted to the machine base . An electro-mechanical band tensioning device , with gate microswitch, stops the band from advancing in the event of insufficient tension and moreover allows ideal operation conditions to be restored at any moment . This is confirmed by an illuminated pilot light . The main switch is located on the front panel . Another switch , located to the right of the main switch , allows the cutting liquid pump to be started .

The choice of one of the two motor rotation speeds and therefore cutting speed is carried out by means of a switch , also located on the front panel . The front panel is also fitted with an emergency stop button . The control lever , fitted with an ergonomic hand-grip and activation button with safety release action , reduces fatigue during operation to a minimum . The blade is protected by a guard with interlock which covers the upper area and the handwheels and by two adjustable lower guards which protect the operator from ejected shavings and coolant . The machine is supplied with a set of service spanners .

4.3 INTENDED AND UNSUITABLE USES OF THE MACHINE

The **SPECIAL 320 CSO** band sawing machine has been designed and built to cut bars , structural steel and ferrous metal pipes in accordance with the instructions contained in this manual . Therefore , the cutting of other materials is not permitted : if the above recommendations are not observed , the machine could be damaged and the health and safety of the operator put at risk . Cutting is not permitted , if the bar has not been first locked in the vice .

5. MAIN TECHNICAL DATA

Under no circumstances should the following data be altered , this is in order to protect the correct functioning of the machine and to avoid creating safety risks for the operator .

Three phase power supply	
Motor power	0.75 - 1.1 kW
Motor revolutions	700 - 1400 rpm
Cutting speed	35 - 71 m/1'
Single phase power supply	
Motor power	1.1 kW
Motor revolutions	1380 rpm
Cutting speed	69 m/1'
Electric pump	0.06 kW
Blade size (length x width x thick)	2825 x 27 x 0.9 mm
Cutting thickness	1,2 mm
Cutting angle	60° dx
Material clamping vice max opening	315 mm
Rapid clamping displacement	5 mm
Jaws height	120 mm
Jaws length	170 mm
Bed height	965 mm
Clamping force	3920 N (400 kg)
Coolant tank capacity	13 liters
Machine weight	~3340 N (340 kg)

6. HANDLING AND TRANSPORTATION

For safe handling and transportation use a lift truck for movement indoors also indicated on the Drawing 3 ENCL.2 . Keep the machine in its normal position and avoid turning it upside down . **If the machine is fastened to the pedestal , stability will be greatly reduced and therefore all the necessary measures should be taken to stop the machine from tipping over .**

All handling and transportation operations should be carried out by trained staff .

7. MACHINE INSTALLATION

A. MACHINE CHECK

The machine should be checked to make sure that it has not been damaged during transportation and handling . If the machine appears to have been damaged , contact MACC immediately . Fit all the supplied accessories onto the machine such as the bar-stop 116 and the roller arm 54 (DRAW.4 ENCL.2) .

B. FASTENING OF THE MACHINE

The machine will be able to operate in keeping with the technical parameters supplied by MACC if it is positioned correctly and fastened securely to the bench or the factory floor so that vibrations are minimal during operation . Consult Drawing 4 SPECIAL 320 CSO Installation plan ENCL.2 .

C. BAND ASSEMBLY

Remove the bow guard 2 by unscrewing the screws (DRAW.14 ENCL.6) . Fit the band by inserting it first between the bearings of the blade guide heads and then on the two pulleys , tighten the blade slightly by means of the hand wheel 058/35 and replace the bow guard . Check that the band is fitted with the correct direction of teeth , as shown in drawing 5-6-7 enclosed document 3 . Make sure that the band type (dimensions 2825x27x0.9) and its teeth pitch are suited to the material to be cut .

D. ELECTRICAL CONNECTION TO THE MAINS

Install a differential thermomagnetic switch with characteristics suited to the mains .

Make sure that the power supply voltage corresponds to the voltage on the motor plate . Connect the cable to the power supply line observing the colour codes of the individual wires , pay particular attention to the earth wire . Connect the machine , make sure that the rotation of the circular blade is in the direction shown by the arrow on the guard .

E. CUTTING COOLANT

For the cooling of the circular blade , fill the tank with emulsible oil obtained from a mixture of water and EMULSOL SGA/NF oil with a percentage of 5-7%

8. MACHINE START UP AND OPERATION

8.1 DEVICES AND THEIR LOCATION

(The location of the devices described is shown on the SPECIAL 320 CSO installation plan Drawing 4 ENCL.2)

Code 228	LOCKABLE MAIN SWITCH
Code 105	ELECTRIC PUMP
Code 132	LOCKING VICE
Code 116	BAR-STOP
Code 160	CUTTING ANGLE DEVICE : to check that cutting inclination is as required .

8.2 TOOLS SUPPLIED

1	Allen wrench size 3
1	Allen wrench size 5
1	Allen wrench size 6
1	Allen wrench size 8
1	Allen wrench size 10

8.3 OPERATION

CHECKS TO CARRY OUT BEFORE EACH CUT

- A. Tension the band by rotating the handwheel 28 until the limit switch (DRAW.5-6-7 ENCL.3) . Remember at the end of the operation to loosen the hand wheel to avoid the slackening of the band .
 - B. Check that the hand indicates the required cutting angle (vice scale) .
 - C. Make sure that the bow and the vice are locked by means of the lever 113 (DRAW.11 ENCL.4) .
 - D. With the motor off , lower the bow and check that at the end of stroke , the band does not touch the counter-vice 115. If the band does touch , adjust the screw 225/95 located on the bow support 107 (DRAW.8-9 ENCL.3) . By adjusting screw 225/95 , the width of the working stroke can also be established .
 - E. Make sure that the piece to be cut is properly secured in the vice
 - F. Make sure that the cooling liquid is circulating in the machine .
- When starting the motor , make sure that the band rotates in the direction of the arrow shown in DRAW.5-6-7 ENCL.3 .
- H. To obtain maximum cutting accuracy , the unit must be located the nearest possible to the work piece . Clamp the work piece with the vice . release the blade guide arm 60 (DRAW.5-6-7 ENCL.3) with handle 61 and move it near the vice jaw so that it doesn't touch it during the cutting operation , then secure it again .

CUTTING OPERATION

- A. Before cutting , check that the inclination is the one required . In order to correct or change the inclination , place the bench lever 113 in position A (DRAW.11 ENCL.4) and after correction , move it back to position D strongly .
 - B. Clamp the material to be cut with the handwheel 28 after having positioned the vice 3-4mm near the piece to be cut by turning the lever 96 from position B to position C (DRAW.10 ENCL.4) . Turn the main switch 212 and the speed change over switch 203 to the position required . After having started the unit by pressing the START push button , the blade starts to rotate .
- The down stroke of the bow can be adjusted by means of the appropriate regulator . Position the blade carefully on the piece to be cut . Then increase the pressure with the regulator in order to accelerate the cutting operation without forcing .
- C. To make a series of cuts , position the bar stop 116 in correspondence of the size required . Fix it into position by using the handwheel 121 (DRAW.10 ENCL.4) .
 - D. To replace the band , carry out the same operations used to assemble the band (chapter 7c) .
 - E. For the choice of blade see table ENCL.1 .

We strongly discourage the use of blades with ruined or insufficiently sharp cutting edges

Attention!!! With selector in CSO position is strictly forbidden to perform cuts by forcing the bow manually . This machine has been conceived to perform cuts by falling action only . Any manual operation can seriously damage the machine .

8.4 SPECIAL SAFETY CHECKS

- A. Before using the machine , check carefully that the safety devices are in good working order , that the mobile parts are not blocked , that no parts are damaged and that all the components are installed correctly and are functioning properly .
- B. Make sure , before operating the machine , that the screws of the guards and other protective devices are adequately secured , especially the screws of the bow guard .**
- C. Check that the safety microswitches and the emergency button are functioning correctly . Test them during a loadless machine cycle .**
- D. Make sure that the mobile guard does not leave uncovered an angle of more than 5° in order to prevent fingers from entering .**
- E. Pay attention to environmental conditions . Do not expose the machine to rain ; to not use it in damp environments , position the machine on a clean dry floor that has no oil or grease stains .
- F. Before using the machine , the operator should make sure that all tools and service spanners used for maintenance or adjustment have been removed .

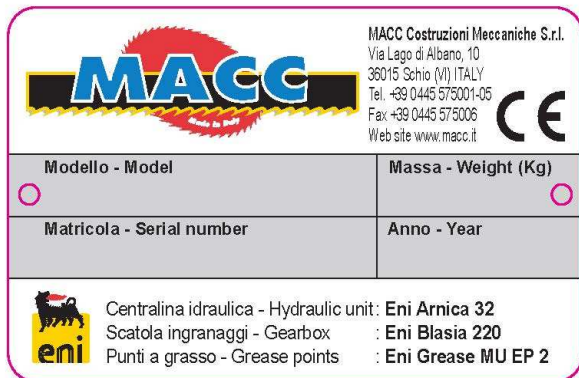

8.5 GENERAL SAFETY RULES

- A. Wear appropriate clothing . The operator's clothing should not be loose or dangling nor should it have parts which could easily get caught . Sleeves should contain elastic .
- Belts , rings or chains should not be worn . Long hair should be kept in a net .
- B. Avoid unstable operating positions . Find a safe and evenly balanced position to operate the machine .
- C. Keep the work area tidy , untidiness increases the risk of accidents .
- D. Do not use the power supply cable to disconnect the plug from the socket . Protect the cable from high temperatures , oil or sharp edges . For outdoor use , only use extension cables which are in line with current regulations .

8.6 MEASURES TO PREVENT RESIDUAL RISKS

- A. The removal of guards and tampering with the safety devices is strictly forbidden .
- B. Gloves and safety glasses should always be worn .
- C. Standard work clothing should be used and kept closed and should not have flapping parts .
- D. The machine should not be cleaned with liquids under pressure .
- E. In the event of fire , extinguishers should not be used unless they are the powder type . The electric power supply to the machine should always be disconnected in these circumstances .
- F. Do not insert foreign bodies into the motor cover and to not supply the machine with voltage by tampering with the safety microswitches or main switch .
- G. Take the necessary precautions to avoid the machine being started by other people during loading , adjustment , piece changing or cleaning .**

8.7 SAFETY , GUIDANCE , NOTICE LABELS ON THE MACHINE

9. MAINTENANCE AND REPAIRS

9.1 GENERAL SAFETY MEASURES

- A. Lockable main switch . Use the padlock in the event of machine failure or replacement of the band . The padlock key should be entrusted to a responsible person .
- B. Before carrying out any work on electrical equipment , remove the power supply plug from the control panel (disconnect voltage) .
- C. Only use cables to supply power , which have a cross-section suited to the power of the machine .
- D. Opening key . The keys of the machine should be kept by authorized personnel . Do not leave the keys for doors which provide access to the hydraulic or electrical parts or keys to lockable switches in easy of reach of unauthorized personnel .
- E. Repairs should only be carried out by authorized personnel . Only spare parts made by the original manufacturer should be used , otherwise these could cause damage or injury .
- F. Do not insert foreign bodies into the motor cover and to not supply the machine with voltage by tampering with the safety microswitches or main switch .
- G. Take the necessary precautions to avoid the machine being started by other people during loading , adjustment , piece changing or cleaning .

9.2 ROUTINE CHECKS AND MAINTENANCE

FREQUENCY (working hours)	OPERATION
1000 hours	Adjustment blade guide bearings
1000	Lubrication of mobile parts in the piece locking vice (ENI GREASE MU EP 2)
50	Cleaning of the coolant tank and filter check
if necessary	Check functioning of bench lever

9.3 DESCRIPTION OF ROUTINE MAINTENANCE

A.Adjustment of the blade guide bearings

Loosen the screw 69-A , rotate the cams 72 , so that the blade guide bushings vertically position the blade in axis (DRAW.5-6-7 ENCL.3) . Tighten the dowels 67-A until the blade secured . Loosen the dowels 67-A slightly (about 1/10 of a turn) . The front blade guides must be positioned the nearest possible to the piece to be cut . Check every 3 months the existing tolerance between the blade guides , making sure that it does not exceed the blade thickness of one tenth of a millimeter , so as to avoid inaccuracies in the cut squaring . Periodically check with mounted blade that the blade guide bearings rotate freely .

B. Lubrication of mobile parts of piece locking vice

Remove jaw 137 (DRAW.10 ENCL.4 - DRAW.11 ENCL.4) , withdraw vice 132 completely by turning the handwheel 125 . Clean and grease the mobile parts of the counter-vice 115 and vice 132 . In case of sliding difficulties or play the clamp guides carry out the following operations : loosen nut 57-A , adjust dowel 56-A and secure nut 57-A .

C. Cleaning of the coolant tank.

The coolant tank can be cleaned by simply removing the crucible 104 (DRAW.12 ENCL.5) . Empty the coolant from the tank and collect the coolant in a container for future disposal . Clean away the shavings and the metallic powder , taking care not to scatter this over the machine especially around the motor and the box containing the electrical equipment . Fill the tank with the amount and liquid stated earlier .

D Checking of bench lever functioning

Check regularly that the rotation release - locking lever is working properly . In the event of the lever not locking correctly, loosen grub screw 123 (DRAW.12 ENCL.5) , tighten nut 114 and fasten grub screw 123 again . Make sure that with the bench lever in position D , arm 109+107 which supports the bow , can rotate freely .

10. INFORMATION REGARDING ENVIRONMENTAL NOISE

An environmental noise test carried out on the SPECIAL 320 CSO band saw machine , identical to the machine to which these operation instructions refer , has given the following results :

ACOUSTIC RADIATION PRESSURE

1. $L_{Aeq} = 83,2 \text{ dB (A)}$
2. $L_{peak} = 90,6 \text{ dB (the maximum acceptable value is 140 dB) .}$
3. The level of background noise has no influence = 48.5-54.2 dB (A) .

The considerable data are the result of tests made under the D. lgs. 277/1991 in the implementation of the directives nr. 80/1107/CEE , nr. 82/605/CEE , nr. 84/477/CEE , and 88/642/CEE .

11. LAYING OFF AND DISMANTLING

11.1 LAYING OFF

If the machine is to be laid off or left idle for a long period , the following operations must be carried out :

1. Disconnect the machine from the electricity mains .
2. Empty oil from the gear box and cooling liquid from its tank
3. Clean carefully the machine by getting rid of all traces of grease , especially on the worked parts that must be protected with anti-oxidants .
4. Cover the machine with a sheet , preferably not plastic as it can cause rust due to the humidity condensation .
5. Store the machine in a closed , dust-free place .

11.2 DISMANTLING

If the machine must be definitively dismantled , its components must be sub-divided for the purpose of a possible recycle of the materials and for the environment safety . The following table is given for your guidance :

Steels	Electric and electronic components	Light alloy	Cast iron	Copper bronze	Plastic and rubber	Various
Shafts , Flanges , Pivots	Motor winding	Motor casing	Structural parts	Bushings	Seals	
Rollers	Electronic panel	Cylinders			Handwheels	
Base					Handles	
Springs						
Tank						
Plate with electrical components	Push buttons and control systems (relays , transformers , etc.)				Cable support chain	
Guards						

Used oil and materials must be disposed of according to 87/101/EEC Directives and to country specific regulations . The disposal of electrical components is provided for by European Directives UE 2015/863 .
