

BENCH GRINDER STAND

ASSEMBLY INSTRUCTIONS

The TM403-012 Bench Grinder Stand has been pre-drilled with holes, spaced accordingly to accept 150mm, 200mm and 254mm bench grinders (Fig 1). To assemble any other bench grinder, new holes may need to be drilled and tapped in the appropriate position.

(Fig 1)

Align the holes in the base of the bench grinder with the holes in the Bench Grinder Stand and firmly secure the 2 bolts provided with a spanner (Fig 2).

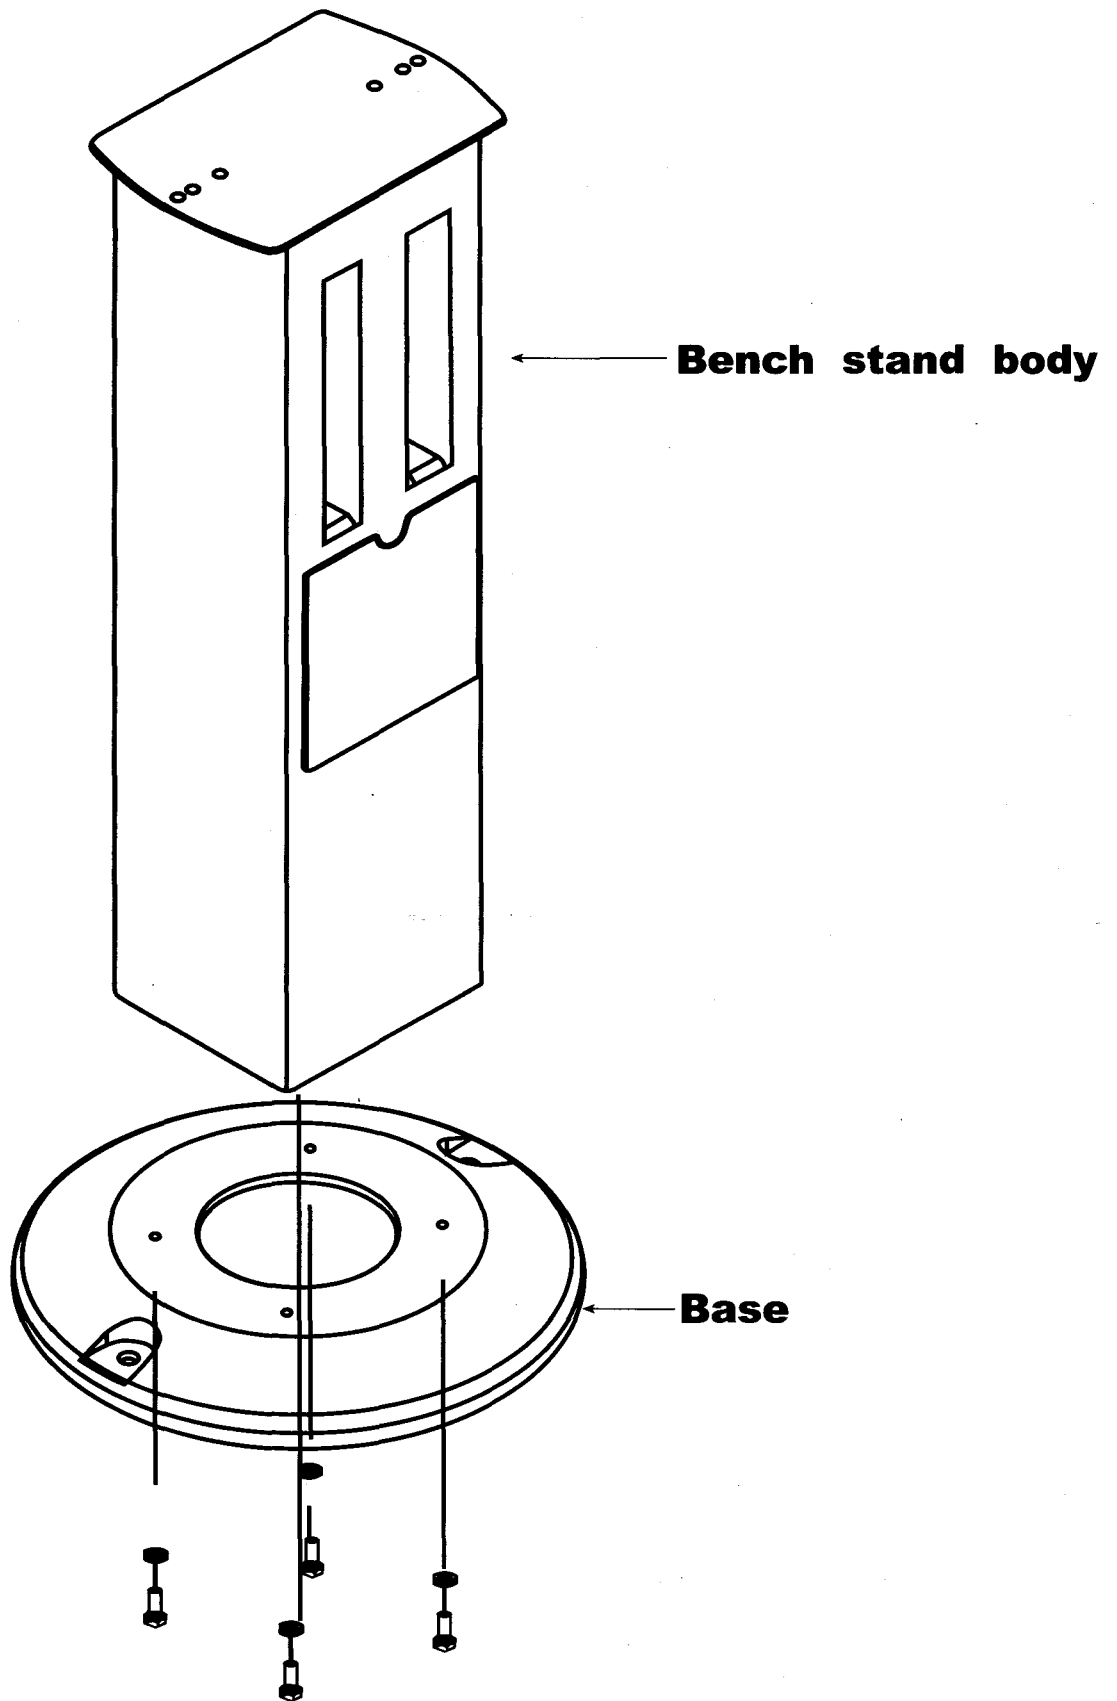

(Fig 2)

WARNING

Ensure that Bench Grinder Stand is firmly bolted to the floor area. Failure to adhere to this warning can cause serious personal injury.

TM403-012

Attach the four (4) bolts and washers through the base and screw into the body of the stand.
