

HOLE SAW SETS - HSS BI-METAL

FILE SETS 5pc

PFERD HSS 'high speed steel' Bi-Metal hole saws can be used for cutting steel, stainless steel, aluminium, cast iron, copper, wood, plastic and many other materials. The alternating tooth pitch prevents chattering during use. Select from a wide range of sizes or popular sets. Hole saws, hole saw arbors and accessories are also available separately.

Cut 1

Cross cut
Suitable for coarse machining and for coarse stock removal.

Cut 2

Cross cut
For universal coarse stock removal and prefinishing.

PFERD file set includes sturdy plastic storage wrap. Contents: 1 of each: hand, half round, three square, square and round files.

- High cutting performance
- Outstanding stock removal
- Minimum effort required when filing
- Made in Germany
