TSN 520 SE

Labyrinth seal

SNL housing seals are the first barrier against contamination. For applications where there are high speeds or extreme temperatures, SKF recommends using labyrinth seals, and for highly contaminated environments, SKF recommends the three-barrier solution. This cost-effective sealing solution can have a significant impact on bearing service life as contaminants have to pass through three barriers to reach the bearing.

- Good protection from contamination
- Keep the lubricant in the housing
- Part of the three barrier solution
- Cost-effective

Overview

Dimensions

Outside diameter	145 mm
Shaft diameter	88.9 mm
Housing groove diameter	147.5 mm
Width	24 mm

Properties

Accessory type	Housing seal
Sealing type	Labyrinth
Material	Steel with silicone element

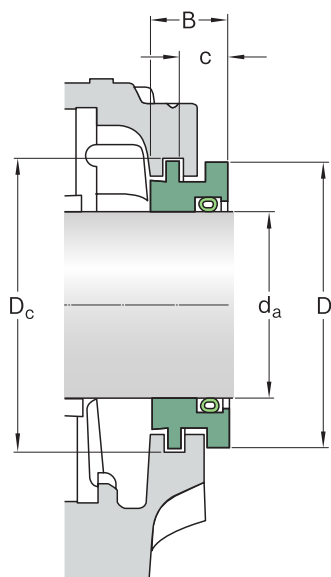

Logistics

Product net weight	1.67 kg
eClass code	23-05-17-90
UNSPSC code	31171519

Technical specification

Material

Steel with silicone element

Dimensions

d_a	88.9 mm	Shaft diameter
D_c	147.5 mm	Diameter of seal groove
D	145 mm	Outside diameter
B	24 mm	Width
c	14 mm	Distance to side face
