

001 Double Cylinder Deadlatch

The Australian-designed Lockwood 001® Deadlatch offers market-leading performance and reliability for your home.

The 001® Deadlatch features a cut-resistant stainless steel bolt, 11 concealed anchorage points and a door frame strengthener that combine to offer high security protection.

Additional features include a bolt holdback function that allows you to use your door in passage mode.

Features and Specifications

- Bolt holdback function activated by external key or internal knob
- Can be key locked in holdback position by key from inside
- Can be keyed alike to other Lockwood door locks
- Available in display pack

Keying

- Supplied individually keyed with two keys per lock
- 78,000 key combinations
- Key blank KB401B5P

Restricted Special Keying

Lockwood locks can be keyed to a number of controlled and/or specially keyed systems. These range from legally protected keys to protect against unauthorised duplication, which can also include specially designed key systems such as master key systems, which allow for different levels of mechanical access control.

Please refer to Lockwood Keying Catalogue or contact your local sales office or customer service for specific information.

Retrofittable

Replace your existing 001 Deadlatch.
