### **PRODUCT DATA:**

#### **CONSTRUCTION:**

Fabricated of type 304 (18-8), 38mm (1-1/2") O.D.

18 gauge stainless steel, seamless construction with exposed surfaces in architectural satin finish. Intermediate supports are contour cut and joined by heliarc welding to form an integral part of the grab rail. All welds ground. Mandrel bending process maintains uniform rail diameter.

#### **STRENGTH:**

When properly mounted, all Bradley heavy duty grab rail systems meet or exceed the requirements of Australian Standard AS 1428.1

### **INSTALLATION:**

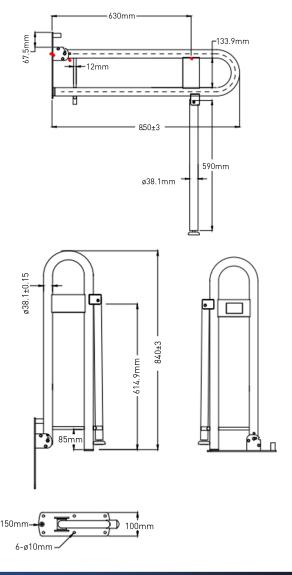

Secure to wall where adequate in-wall backing exists. Use rail as template to locate mounting holes. Drill holes and set anchors as appropriate. Mount grab rail and secure mounting screws. (Screws not provided.)

Drop down rails must be installed / fitted to a solid wall or firm surface and installed by qualified trades people. Brickwork, blockwork, concrete or 50mm timber stud will

## **GUIDE SPECIFICATION:**
