

83AL/45 S black 6-Pin Serie 2

LIGHT & SECURE - DEFIES WIND & WEATHER

The 83AL S TITALIUM™ padlock makes security easy and weatherproof. The lock body owes its low weight and high robustness to the special aluminium Titalium.

Whether doors, gates, cupboards in the garden shed or the storage locker on a boat, they can all be secured with the 83TI S TITALIUM™. The robust padlock not only resists thieves, a special coating protects shackle and lock body from corrosion. A weather protection cap shields the cylinder from the weather and salt water. One key - several locks

The padlock is not only adaptable when it comes to the choice of location. The cylinder of the 83AL S can be exchanged and thus matched keyed alike to existing bittings. The shackle can also be quickly exchanged and adapted to the existing conditions.

The 83AL TITALIUM™ proves that security can be light and flexible.

Technologies

- TITALIUM™ lock body – the special aluminium ensures high security with low weight
- Hardened special steel shackle with NANO PROTECT™ coating for very high corrosion protection
- Double bolted locking mechanism increases the security of the lock
- 2 variants: with automatic locking by simply pressing down the shackle or with key retaining, i.e. locking only with a key (key retaining is set up by inserting the Z-bar)
- Rekeyable: the cylinder can be exchanged and thus also adapted to existing bittings
- Cylinder protection cap against moisture and dust optionally available
