

MODEL 9555-50CHP

CHANGING PLACES

FOLDING SHOWER SEAT

PRODUCT FEATURES:

- Stainless steel tubing
- Surface mounted
- White laminate seat bonded to a phenolic core
- Slip resistant
- Complies to Changing Places Design Specifications 2020

Specifications 2020

Overall Dimensions

960mm W x 450mm projection (when in use)

PRODUCT DATA:

CONSTRUCTION:

FRAME: Fabricated of type 304 stainless steel square tubing with exposed surfaces in architectural satin finish. Legs fit to floor.

SEAT: Fabricated of 10mm thick solid plastic (white) laminate, made of coloured melamine bonded under high pressure to a phenolic core.

All exposed edges are machined smooth to a uniform dark finish.

OPERATION:

Hinged seat folds up and out of the way when not in use. When properly installed, seat can support up to 250kg static load.

INSTALLATION:

Provide concealed backing or anchors as specified by architect before finished wall is applied. Secure to wall with mounting screws (included) at holes provided. Mount the unit so that the top of the seat is 475mm above the finished floor.

GUIDE SPECIFICATION:

Folding shower seat shall be fabricated of 10mm thick melamine bonded to a phenolic core secured to a type 304 stainless steel frame of square tubing.
