

Padlock Chain

Lockwood Chains are designed for both general purpose and maximum security applications.

Features and Specifications

- Hardened manganese alloy steel chain for added strength
- High cut resistant hardened steel construction
- Accepts up to 12.5mm padlock shackle diameter
- Tough fabric sleeve, shields the chain from the elements while reducing the chance of scratching
- 900mm in length

Security

Security Rating 7

Corrosion Rating 3

Pack Variations

Available in display pack only.

Choosing the Right Padlock

For the best results it is recommended that a Lockwood padlock with the same security rating as the accessory is selected.

When the padlock and accessory are combined the lower of the two respective ratings will apply.

Product Details

Functions	Hardened manganese alloy steel
Materials	High cut resistant hardened steel

Standards and Compliance

SP7

Physical Security grades are employed for padlocks. These grades are defined in part by the effective differs and key combinations. Padlocks Physical Security (SP) grade 7

Corrosion Resistance Rating C3: Environments that are sometimes damp in the majority of normal rural and suburban localities, including interiors where condensation may occur.

Designed and tested to the Australian Padlock Standard AS4145.4 2002 and are rated for both security and corrosion resistance.
