

## ML\_970\_ST Automatic Temperature & Sanitiser Dispenser

### Material Specifications

- ABS Plastic Body & Stand

### Mounting

- Wall Mounted or Freestanding
- Surface Mount Concealed Fix

### Dimensions

- 131 x 399 x 198 mm

### Installation Guidelines

- *May be subject to Australian Building Code Regulations for height and location fixing and may be subject to placement as per architectural drawings. In all cases, this is the responsibility of the installer.*
- **Recommended Installation height for above counter top: Distance (minimum typical) is 200mm above counter top to ensure auto sensor detection works effectively.**

### For Dry Wall:

1. Use the backplane as a template, with this template mark the location of the mounting hole at the height required.
2. Use wall plug and screw to mount the dispenser. See installation details in the box for further information.

### For Stand Provided:

1. Slide holder for the pallet into the bottom pallet.
2. Then slide the dispenser into the stand.
3. Check to see that the dispenser is secure on the stand.

### Operation

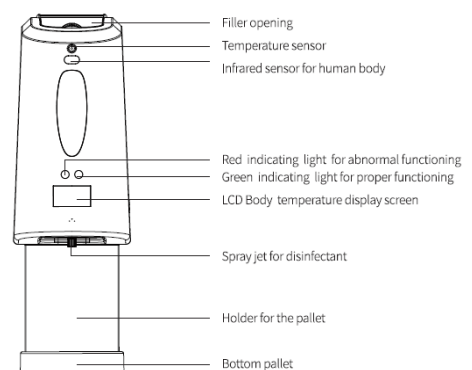

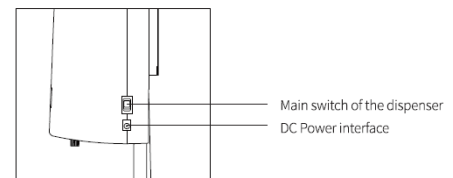

- Sanitiser is automatically dispensed when hands are placed in/under sensor zone.

### Consumable Advice

- Please ensure to clean the internal cartridge properly before each re-fill as deposits of old consumables will lead to malfunction and jamming.

### Features

- Powered by four AA Batteries (not included) or via wall plug.
- High-precision infrared sensors to ensure stable and reliable performance.
- Automatic body temperature detection with automatic washing-free hands sanitizer integrated, which makes disinfection more convenient.
- Strong environmental temperature adaptability, could be used normally in a complex environment.
- High quality 3 in 1 Gel/ Foam/ Mist Spray Ejector
- Two temperature units: Celsius and Fahrenheit.
- 1300ml Bottle Capacity.
