LOCKWOOD VIVID® COLLECTION

Unleash *your* Style

Proudly introducing the Lockwood Vivid® Collection. Available in three luxurious finishes – Satin Brass, Satin Gun Metal, and Satin Bronze, this is a range well-placed to satisfy the growing consumer trend towards coloured door hardware finishes. Gun Metal is a popular choice thanks to its versatility, and it works with almost any décor style, from sleek and modern to heritage charm. There is also an emerging preference for warmer, natural tones such as brass and bronze, which work well in Modern Country and Hamptons-inspired homes and add character to new builds.

Vivid® Collection levers come in Passage, Privacy and Dummy internal door formats, as well as sliding door components like cavity sliders, edge pulls, and flush pulls. Accessories such as door stops and hinges complete the full internal application.

With the addition of new accessories Vivid Passage levers paired up with **Synergy Mortice Locks** can be used on Entry doors in Multi-Res/ Apartment environments*.

The Vivid® Collection's three finishes are derived from a physical vapor deposition (PVD) surface treatment which offers a range of benefits, including sustainability and durability. PVD coatings exhibit unparalleled hardness, with four times the robustness of chrome, along with superior scratch and wear resistance, and reduced susceptibility to corrosion. In addition, PVD coatings do not emit toxic liquids or gases during manufacturing, making them a cleaner and safer method of production.

With the peace of mind that PVD provides, and the variety of coloured finishes to match any home décor style, Vivid® Collection is the complete solution for renovators and new home builders alike.

* Special keying cylinders for multi-res / apartment applications are **coming soon**.

Vivid® Collection Internal Door Leversets

The Lockwood Vivid® Collection is a stylish range of internal door furniture suitable for use in residential dwellings.

The Vivid® Collection includes three different internal leversets: the Privacy Leverset, Passage Leverset and Half Dummy Lever.

The Privacy Leverset comes with Privacy Tubular Latches and an accessory pack (including spindles, springs, mounting wood screws, through fix screws, privacy pin and a pointed tool), while the Passage Leverset comes with tubular latches and a different accessory pack (including spindles, springs, mounting wood screws, and through fix screws), specifically designed for passage door applications. The Half Dummy Lever comes with a fixed lever and timber mounting screws to be used on cupboard or wardrobe doors.

Features and Specifications

- All fixings are concealed beneath a removable rose trim providing an aesthetically appealing installation.
- Lever range includes two AS1428.1 compliant levers
- The 54mm rose suits up to 45mm door preparations.
- Passage sets are now enabled to be used with Lockwood Synergy mortise locks by introducing all the necessary accessories that include Escutcheons, Mortise lock finish kits and Oval cylinders

Vivid® Collection Commercial Hinges

The Lockwood Vivid® Collection Loose Pin Hinges are suitable for regular internal doors, as they make it easier to remove the door from the frame for maintenance purposes. Additionally, they offer the convenience of quickly removing internal doors to accommodate the installation or removal of large furniture pieces or appliances.

These hinges are made from 304 stainless steel and have a typical metric pole pattern. Available in three colours, they can be coordinated with other products in the Vivid® Collection.

Standards and Compliance

Tested to AS4145.2 2008 for Neutral Salt Spray, passing C6 - 168 hours.

Successfully tested up to 2 hours on fire door assemblies in accordance with the Australian Standard AS1905.1 2015 - Part 1: Fire Resistant Doorsets
