Dear Sharon,

APPROVAL OF DAIRY MAINTENANCE COMPOUND FOR USE IN DAIRY PROCESSING

The new product **STORGARD Dome Quick Change Kit and STORGARD Dome Quick Change Refill Kit** has been considered in conjunction with the type of validation information provided and has been determined to satisfy the requirements of regulations 12, 13, 14, 53 and 247 of the Animal Products Regulations 2021 and regulation 43 of the Raw Milk for Sale Consumers Regulations 2015, when used in accordance with the label.

The product **STORGARD Dome Quick Change Kit and STORGARD Dome Quick Change Refill Kit** has been assessed and is approved for use in dairy premises when used in accordance with label instructions.

This approval of the compound for use in dairy processing is subject to the following conditions:

1. To be used in accordance with label instructions.
2. Not for use on or near food contact surfaces or in areas where food contact surfaces are exposed (including, in farm dairies, milking and milk storage areas).
3. Area to be well-ventilated after application.
4. Must not be used in a manner that may result in edible ingredients, product and packaging becoming contaminated.
5. All edible ingredients, product and packaging must be removed, isolated or covered before use (including protection from odours).
6. Should incidental contact with food contact surfaces occur, surfaces must be cleaned and thoroughly rinsed to ensure no residue remains.
7. In farm dairies, animal feed must be removed and feed contact surfaces must be rinsed after use.
8. In farm dairies, bait, when used, must not be accessible to milking animals.
9. Not for use near milking animals except when used in accordance with ACVM approval/ registration.
10. For manufacturing areas, may only be used in accordance with documented pest management procedures

Where this approval is stated on the product label, the statement "MPI approved for use in dairy processing" is to be used, unless an alternative is agreed in writing by MPI.

Should this product be determined to be unsatisfactory when used as per the label or as per any recommendation provided by the manufacturer or an agent of the manufacturer, MPI may amend or withdraw this approval.

Review

This approval of a dairy maintenance compound for use in dairy processing is valid for a maximum period of 5 years but is subject to periodic review and may be withdrawn at any time should the Director-General determine that there is sufficient evidence that the product is not fit for the purpose for which this approval applies. You will be issued a letter prior to the review date, which is set at **03 April 2030**, but you are responsible for ensuring that this review is completed if you wish to retain MPI approval of the above dairy maintenance compound.

Yours faithfully,

Shaleen Narayan
