WARNING
KEEP OUT OF REACH OF CHILDREN

PINDONE RABBIT PELLETS
for the control of rabbits

ACTIVE INGREDIENT: Contains 0.25g/kg Pindone in the form of bait.

WARNING: May cause damage to organs through prolonged or repeated exposure. Designed for biocidal action.
PRECAUTIONS: Wear overalls and waterproof gloves when applying bait. Wash hands and exposed skin before meals and after work. Do not eat, drink or smoke while using.
Store in original container away from foodstuffs.
Avoid contamination of any water supply with baits or empty containers. Dispose of to an approved hazardous waste facility.

FIRST AID: If swallowed do NOT induce vomiting. For advice, contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor immediately.

STOCK and DOMESTIC ANIMALS:
Ensure livestock and domestic animals cannot access baits. Do not return stock until 4 weeks after laying baits. Where possible minimize non-target animals from consuming poisoned carcasses either by collecting carcasses and disposing them by burning or burying below 500mm (wherever feasible), or by limiting their access to the baiting site until carcasses are unlikely to be edible or contain residues.

TREATMENT OF DOMESTIC ANIMALS:
Vitamin K1 is an effective antidote against accidental poisoning of domestic animals by Pindone.

DIRECTIONS FOR USE: Apply bait at the rates of 2 – 3 kg per hectare . Pellets can be applied by applying in small heaps of 10 to 15 pellets on earth spits cut with a shovel, spade or grubber; lightly broadcast on rabbit sign, or broadcast by hand or aircraft.
Locate all fresh rabbit sign and apply the pellets twice at 3 to 4 day intervals in all areas where rabbits graze or feed. It is important to have sufficient bait for two days feeding by all rabbits in the area. Leave for 2 days then repeat the application. Check for further sign after 9 to 14 days and if rabbit sign is still seen, repeat.

By law
1. **The product must be sold only to or used by a person holding an Approved Use for Pindone Certificate.**
2. **This product must only be used as specified in the label.**
3. **Signs must be posted in public areas to notify members of the public that this product has been applied in the area – see conditions set under relevant legislation for more details.**
4. **If the product is applied aerially public notification is required – see conditions set under relevant legislation for more details.**
