

HEAVY DUTY CLEANER DISINFECTANT NON PERFUMED

Heavy Duty Cleaner & Disinfectant

Description:

Heavy Duty Cleaner and Disinfectant is a teal coloured liquid of neutral pH. It does not contain any perfumes, making it an ideal product for use in food preparation and processing areas.

Heavy Duty Cleaner and Disinfectant is a high performance, quaternary based cleaner/sanitiser containing a blend of synergistic surfactants and sequestering agents and water softeners designed to allow the product to work well in hard or soft water. Unlike chlorine based products, Heavy Duty Cleaner and Disinfectant can be used safely on all surfaces, polished floors, fittings and benches.

In addition to its disinfecting properties, Heavy Duty Cleaner and Disinfectant effectively removes and kills moulds. Its biocidal properties ensure effective deodorising in many applications.

Directions for use:

For general control on walls, floors, tables, benches, food processing equipment and in cold rooms and refrigerators:

1. Use 50-100mL in 5L of warm to hot water and mop surfaces to be cleaned.
2. Add 10mL to 750mL spray bottles for bench tops and similar hard surface cleaning.
3. Rinse all food contacting surfaces with potable water after use.

Safety Information:

- If poisoning occurs contact a doctor or Poisons Information Centre. Phone New Zealand 0800 764 766.
- If aspirated into the lungs, remove from exposure.
- If swallowed, do NOT induce vomiting, give water to drink and seek medical attention.
- If in eyes, hold eyes open, and flood for at least 15 minutes and see a doctor.
- If skin or hair contact occurs, remove contaminated clothing and wash skin thoroughly with water.

24 Hour toll free emergency phone no: 0800 243 622

For further information regarding product safety and handling, refer to the Material Safety Data Sheet and Product Label.

Features:

- MPI Approved C41
(All animal product except dairy)
- High performance cleaner sanitiser
- Non perfumed for use in food preparation areas
- Quaternary Ammonium based
- Safe on all surfaces
- Strong emulsifying properties
- Excellent protein removing ability

Areas of use:

- Meat processing
- Poultry processing
- Seafood processing
- Commercial fishing vessels
- Shipping containers
- Cool rooms
- Food processing plants
- Beverage plants
- Dairies

Physical & Chemical Properties

FORM: Liquid

COLOUR: Teal Green

ODOUR: N/A

pH: 10-11

SPECIFIC GRAVITY: 1.1
