

MULTI-PURPOSE

FREEWAY

Floor & Multi-Purpose Cleaner

Description:

FREEWAY is a broad spectrum cleaner capable of removing most soil types easily from walls, floors, benches, bowls and painted surfaces.

FREEWAY has a two way disinfecting action: alkyl-benzyl dimethyl-ammonium-chloride provides the activity against gram positive bacteria whereas the terpineol naturally present in the pine oil base provides synergistic activity against gram negative bacteria. This synergistic activity is especially useful in hospital situations where a broad-spectrum sanitiser is required at a low cost. Odour causing bacteria are controlled and replaced by a natural fresh perfume.

FREEWAY is effective in hot and cold water, in hard water, and is sufficiently low foaming to be used with automatic scrubbing equipment. It is concentrated allowing economical dilution yet it's totally organic formulation means no rinsing is required.

FREEWAY contains non-ionic surfactants, solvents, pine oil, chelating agents, penetrants, reodorants, and over 0.5% alkyl benzyl dimethyl ammonium chloride in a totally organic formulation.

MPI Approved C32 [All animal product except dairy]

Directions for use:

HEAVY CLEANING & DEGREASING	20% [1:5]
MAINTENANCE CLEANING	5% [1:20] for toilets, showers, floors in washrooms.
