

WASH N SHINE

Vehicle Shine and Polish

Description:

Wash n Shine is a high performance vehicle shampoo concentrate containing speciality silicone waxes for cleaning, conditioning and obtaining a surface shine on all painted surfaces.

Wash n Shine is especially useful for vehicles that must look clean all the time – vehicles on display in car yards, food delivery vehicles, taxis and buses will benefit their image with regular use of Wash n Shine.

It is a one shot system to save time and labour. It protects all paintwork from oxidation and extends life expectancy.

The Silicone wax base enhances appearances after re-washing. Wash n Shine is a completely water soluble, amber, viscous liquid containing a complex blend of anionic and non-ionic surfactant and silicone waxes.

Directions for use:

1. Add 1 to 2 capfuls (for machine and manual cleaning) of Wash n Shine to 10 litres of warm water. Approximately 15 to 30mL per 10L bucket.
2. Apply by spraying or by hand washing then simply hose suds off.
3. Where necessary, ensure all gritty dirt is removed prior to rubbing down.
4. Be careful not to let suds dry while washing as this may cause streaking.
5. When car is dry, polish with a clean dry soft cloth.

Safety Information:

If poisoning occurs contact a doctor or Poisons

- Information Centre. Phone New Zealand 0800 764 766.
- If aspirated into the lungs, remove from exposure.
- If swallowed, do NOT induce vomiting, give water to drink and seek medical attention.
- If in eyes, hold eyes open, and flood for at least 15 minutes and see a doctor.
- If skin or hair contact occurs, remove contaminated clothing and wash skin thoroughly with water.
