

**DYNALUX**  
**LIQUID LAUNDRY DETERGENT**

**DYNALUX** liquid laundry detergent is a rich, opaque concentrate containing a highly active surfactant system combined with an optimised blend of soil suspending agents, anti-redeposition components, mildly alkaline builders and optical brighteners for a total laundering job. **DYNALUX** is formulated for effective use in cold through to hot water. **DYNALUX** is suitable for use in most water conditions and can easily be used in combination with detergent boosters such as **Liquid Break**.

**PROPERTIES**

Appearance	Slightly viscous, opaque blue liquid
Fragrance	Fresh and lingering
Biodegradability	Yes, all surfactants
Caustic	No present
pH	Typically 8-9 (pre dilution)
Fabric compatibility	All washable fabrics

**USE DIRECTIONS**

**DOMESTIC** (Cup = metric cup = 250ml)  
for light to medium soils

Top loader and wringer machines	1/4 to 1/2 cup per wash
Twin Tubs	1/4 to 1/3 cup per wash
Handwashing	1/8 cup in a basin
Soaking	1/3 cup per 5 litres of water for overnight soaking then wash as above

**INDUSTRIAL** Please consult your representative.

**DYNALUX** is not recommended for front loading domestic machines. Reduce dosage for part loads. If you use the 'suds return', have heavily soiled articles or live in a hard water area, add slightly more **DYNALUX**.
