

DESCRIPTION

X Detergent has a modern blend of surfactants, disinfectants and Organosilane molecules to aid in the removal of mould, mildew, moss and stains from all surfaces including concrete, paint, brick work, timber and all outdoor furniture.

Once dry X Detergent give surfaces long lasting protection.

It is excellent for removing and protecting hard surfaces and fabric alike.

Use X Detergent after using solvents to remove stains from laundry linen.

Results vary and will become apparent within 2 - 4 weeks.

FEATURES AND BENEFITS

- ✓ Readily Biodegradable
- ✓ Neutral when diluted to solution
- ✓ Contains protective molecule to resist mould coming back

DIRECTIONS OF USE

It is important to allow X Detergent to dry to give long lasting protection.

Hard Surfaces:

Apply to the surface, scrub and agitate. Leave to dry. If you need to wash due to mould becoming unsightly as it dies off. Wash them reapply and allow to dry.

For porous surfaces such as concrete it is important to scrub and agitate the surface. For surfaces like timber apply and leave. If you scrub you will rough the surface up. If you need to scrub go with the grain not against it.

For painted surfaces - apply and leave.

Light Duty: Dilute 5 parts water to 1 part X-Detergent.

Heavy Duty: Dilute 4 parts water to 1 part X-Detergent.
