PRODUCT DATA SHEET

PER PLUS **POWDERED BLEACH**

With the advent of market acceptance of synthetic blends of materials, the laundry industry has requirement for safe bleach for the removal of stains on these fabrics.

Space Industries offer a range of products for the processing of synthetic blends and to complete the range, have formulated **PER PLUS** as the product for stain removal.

PER PLUS is safe bleach, for all fabrics and colored fabrics, including wool, silk and synthetics. It provides colour stabilization and avoids loss of colour, change of shade and bleeding and marking off most dyes.

Ideal for bleaching of synthetics it does not attack the permanent press coatings where these exist. Sportsman's creams can be bleached with **PER PLUS** safely and economically

PER PLUS is ideal for the removal of all organic stains such as tea, coffee, perspiration, grass etc.

DIRECTIONS:

Light to normal stains – 85 g – 125g per 50kg load. Add bleach to hot wash with detergent or boil for the most effective results.

Heavy stains – Use up to 1 kg per 50kg. Add hot ware with detergent and boil

Polyesters/Cottons/Silks/Woolens – Add 125g per 50kg hot wash with detergent. Temperature 50 – 55 degrees C
