

STAINLESS STEEL POLISH

(NZFSA APPROVED - C22)

GENERAL DESCRIPTION

Stainless Steel Polish is a liquid, it is formulated to protect and enhance stainless steel surfaces. It will resist finger printing and water spotting when applied correctly – this may also be used on plastic laminates, wood furniture, porcelain and synthetic or leatherette materials.

PROPERTIES

Colour	Clear, Colourless
Odour	Practically odourless
Specific Gravity/Bulk	S.G. 0.80

DIRECTIONS

Apply polish to a lint free cloth or paper towel, wipe gently and buff to a polished finish. Ensure surface to be polished is thoroughly cleaned. For dish machine exteriors, clean first with **LSR (Lime Scale Remover)**, then apply polish.

KEEP OUT OF REACH OF CHILDREN

CAUTION: Contains Kerosene. Highly flammable – do not puncture, incinerate or stove above 50°C – avoid naked lights, heat, sparks, open flame and other ignition sources.

Harmful if swallowed – DO NOT induce vomiting and immediately contact Poisons Information Centre 0800 764 766 or a Doctor.
