

# BioClean™ Preparation Mats

Sterile, three-layered preparation mat with leak-proof properties and superb absorption.

## FEATURES + BENEFITS

### Advanced defences

- The BioClean™ ChemPrep Mat S-BCPM is composed of three layers – a mesh upper layer allows even liquid distribution, while the middle layer provides excellent absorption and the impermeable bottom layer protects against leakages.

### Reduced allergy and contamination risks

- It is latex-free, low-linting and is sterilised by gamma irradiation and individually wrapped to minimise contamination risks.

### Assured quality & optimised cleanliness

- These preparation mats are made to ISO 9001 standards, for product quality you can depend on. They are also packed in an ISO Class 4 cleanroom, ensuring low particulate levels.

### Three-layered construction

- For highly leak-proof absorbency.

### Gamma irradiation sterilisation

- Suitable for use in an ISO 4 cleanroom.

### Industries:

- Controlled and Critical Environments
- Laboratory and Research
- Production and Manufacturing

### Suitable for chemotherapy

## TECHNICAL SPECIFICATIONS

SPECIFICATIONS	DESCRIPTION
MATERIAL	Top layer: Polyolefin apertured film Middle layer: Air-laid paper Bottom layer: Polyethylene
COLOUR	Blue
SIZE	56 x 40cm
STERILITY	10 <sup>-6</sup>
ASSURANCE LEVEL	Class 10 / ISO 4
CLEANROOM CLASS	EU GMP Grade A/B and other sterile cleanrooms
SHELF LIFE	3 years from date of manufacture
WEIGHT	210gsm

### Packaging:

- One piece per sealed inner PE bag;
- One inner bag per second PE bag;
- 25x double bags per sealed outer PE bag;
- 4x outer bags per lined carton
- 100 pieces
