PC290
Hiballer**
\$110.00

**Bushpro
PC270
Speed**
\$110.00

**Timbersaws
Poker**
\$99.00

- Plug Planter:** High tensile material, for use in easy non rocky soil. To suit standard plugs, 50 x 50 x 110mm (50 plugs per tray).
- Beez Neez:** Designed specifically for planting MANUKA and Native seedlings. Also excellent for many other seedlings where a small planting hole is required. Ideal for planting plugs. High tensile blade with a tapered spike to penetrate tough rock and clay soils to help cultivate below the root structure without leaving large air pockets. T-Bar handle to easily screw the blade around forming a round hole for larger pots. Also available with a shorter shaft and Timbersaws spade handle.
- Bushpro:** The PC290 Hiballer and PC270 Speed are tough, lightweight, Stainless Steel Planting Spades with a Comfort D handle.
- Poker:** A good "All Rounder" spade with a straight shaft to give direct penetration. The high tensile blade also offers maximum penetration with its tapering sides going down to a slightly flat vee. A nicely balanced short spade for hard to plant areas including stony ground.

Timbersaws products are designed and manufactured by Levin Sawmakers in Levin, New Zealand

TIMBERSAWS SPADE HANDLES

Order Code	Shaft Straight or Offset	Length	Blade Length	Blade width top	Blade width bottom	Blade thickness	Weight
Plug Planter	Straight	940mm	110mm	50 x 50mm	30 x 30mm	2mm	2.40kg
Beez Neez T	Straight	1100mm	250mm	100mm	80mm	4mm	3.20kg
Beez Neez H	Straight	900mm	250mm	100mm	80mm	4mm	2.25kg
PC290	Straight	864mm	230mm	108mm	83mm	3mm	1.50kg
PC270	Straight	864mm	220mm	98mm	70mm	3mm	1.40kg
Poker	Straight	910mm	290mm	150mm	125mm	4mm	2.70kg

\$18.90 + GST

Timbersaws spade handles have now been extensively redesigned to stand the toughest conditions.

- The inside of the D handle has been made wider for bigger hands with an oval grip for comfort.
- The spade yoke is made from nylon impregnated with rubber to assist with impact shock absorption.
- The handle grip is over moulded with a new vulcanized thermoplastic rubber for ultimate grip, comfort and durability. This special over mould substance will not break down with sweat, salt air or U.V and is non slip wet or dry. It also has the lowest rating for muscular activity with less effort needed to grip, less muscle strain and less fatigue for the user.

Prices are exclusive of GST and freight. For more information visit www.timbersaws.co.nz
