

# Micro Break

## Technical Bulletin

### Product Description

Micro Break is a part of Dominant's Micro Active System range. It prepares the fabric for the washing process by raising the pH of the wash water. Raising the pH of the wash water accelerates the washing process by allowing individual fibers of a fabric to open up and begin releasing entrapped soil particles.

### Applications

#### How To Use

Use in conjunction with other Micro Active System products such as Micro Suds, Micro Oxy, Micro Bleach and Micro San for best results.

Dispense using Dominant's Micro Active System Dispenser. This automatically feeds Micro Break directly to the washing machine at accurate dosage. Your Dominant Technical Representative will install and monitor the system to ensure perfect results every wash.

To change bottles unscrew the pickup connector from the empty bottle, remove the cap from the new bottle and screw on pickup connector.

### Technical Data

Micro Break a highly alkaline product that contains biodegradable water softening agents to aid in the washing process as well as boost detergent performance.

It has a neat pH of 13 - 14.

### Pack Sizes

Carton (2x5L Bottle)

C11583

### Dominant Colour Code
