

# Micro Soft

## Technical Bulletin

### Product Description

Micro Soft is a part of the Dominant Micro active System that utilizes Dominant's proprietary Proteka Cap, a non-touch system ensuring no staff are ever exposed to these products.

Micro soft contains readily biodegradable detergents, water softener, optical brightener and a fabric softening agent. Finished with a waterlily fragrance.

### Applications

Use in conjunction with other Micro Active System products such as Micro Break, Micro Oxy, Micro Bleach and Micro San for best results.

Dispense using Dominant's Micro Active System Dispenser. This automatically feeds Micro Soft directly to the washing machine at accurate dosage.

### Technical Data

Micro soft contains a blend of detergents and a fabric softening agent to aid in the bulking of fabrics and reducing static after drying. Optical brighteners are added improve fabric whiteness to complete the cleaning and softening process.

it has a pH of 2.3 in the neat form.
